Monday, November 14, 2016, 6:30 PM

Brookline Town Hall 408

333 Washington Street

Training Session by Livable Streets Alliance for Bicycle Advisory Committee:

Nidhi Gulati, the Emerald Network Program Manager for Livable Streets Alliance (<http://www.livablestreets.info/staff>) will be conducting a training session for the Bicycle Advisory Committee and others interested in improving bicycle infrastructure in Brookline to help us improve community outreach for bicycle projects in Brookline. In particular, we will be focusing on preparing to host a community workshop on bicycle improvements for Hammond Street, for which we are receiving technical assistance from Livable Streets as an Emerald Network partner. <http://www.emeraldnetwork.info/>
