

TOWN OF BROOKLINE Complete Streets Plan

The Town of Brookline is in the process of updating its Complete Streets Prioritization Plan after constructing most of the planned projects from the original plan published in 2018. The focus of this effort is to identify street and intersection design projects for future funding that advance the Town of Brookline's goal to invest in and prioritize projects that improve safety and access for "alternative" modes over single-occupancy vehicle trips. In addition to guiding implementation of Complete Streets projects more broadly, the Plan will make the Town eligible to apply for project construction funding through the MassDOT Complete Streets Funding Program.

We want to hear from you! Please tell us about your experiences and ideas through our survey and/or virtual listening session on May 4th at 6:30pm on Zoom.
