### **AGENDA**

Please join Landscape Architect, Jessie Waisnor, at Murphy Playground for one of two open house sessions to discuss opportunities, ideas and improvements for the upcoming playground renovation. Drop in and share information about this special neighborhood playground.

At the open house, we will share the design concepts that were presented at our last virtual public meeting. This is a great opportunity to share your design ideas and help us revise the proposed designs to best meet the needs of the community and all park users. Join anytime during the set hours. We will set-up on the open lawn space. All are welcome!
