Petition of residents of the Cohen Residences to the Brookline
Zoning Board of Appeals (112 Centre Street)

The undersigned are residents of the Cohen Residence located
on Centre Street in Brookline

We petition the Brookline Zoning Board of Appeals to fully and
carefully consider safety impacts to seniors from the proposed
development at 420 Harvard Street. We understand the
proposed project includes a five story building with underground
parking with a lane of traffic to enter the underground parking, a
second lane of traffic to exit the underground parking and a third
lane of traffic for a truck loading zone.

We also understand these three lanes will cut across the sidewalk on Fuller Street directly across from the busy Fuller Street parking lot. Cars already often block the sidewalk on that side of Fuller.

The sidewalks on both sides of the street will be blocked by the proposed project. Our safety will be jeopardized. Warning lights are not the answer. We urge the Zoning Board of Appeals not to approve the project unless the entrance, exit and loading zone are moved from Fuller Street so that one sidewalk remains free for us to walk safely.
