Subject: letter to ZBA re: Babcock Place

Hi Maria,

Can you please forward the message below to the ZBA? Thanks so much,

Carrie

Dear members of the ZBA for Babcock Place,

We understand that your upcoming site visit on June 5th is not a time for public comments, so we are writing now to respectfully request that you walk into our back yards and driveway during your visit.

Viewing the site from the Stedman St. perspective will supplement the current project renderings (which do not include topography) and give you a fuller understanding of how the changes in elevation affect the impact on all of the abutters.

Additionally, we will place balloons on the edge of our property to roughly indicate the currently-proposed approximately 50-foot building height at the Stedman St. side of the project. Due to the tree cover, they can only be viewed from our backyards & the driveway between 121-123 and 117-119 Stedman St.

Thank you for your consideration.

Gina Crandell & David Roochnik, 117 Stedman St.
Jodie Manasevit and John Anderson, 119 Stedman St.
Christine & Brian Goldman, 121 Stedman St.
Carrie & Guy Staff, 123 Stedman St.
