Subject: Babcock Place

Hi Maria,

I live at 235 Freeman St, Unit 1, at the corner of Babcock and Freeman St. I am concerned about the scope of the Babcock Place proposal for a large condominium building. I think more housing is fine, but I wouldn't like to see a building taller than the houses around it and closer to the road than the houses around it. I hope that you can have them modify their design to better fit in with the neighborhood, in terms of set back and in terms of height.

I'm sorry that I won't be able to make the ZBA meeting. I hope you'll accept this email instead.

Thank you.

Rob Sherry
