Subject: Fwd: Babcock place revisions do not address quality of neighborhood life erosion or environmental/health hazards

In regards to the Babcock project I agree with Greta Fox assessment of the current situations.

I live at 12 Manchester Rd caring for my Mom who is 93 and has lived here The intrusion of a structure that is not going to fit into the neighborhood is a major concern.

I will try to come to the Monday October 2 meeting but being a care giver it is difficult. I wanted to let you know of our continued concerns on this project.

Thank you
Marilyn Daniels
