From: Dr. Swannie Jett, DrPH, MSc
Health Commissioner
Brookline Public Health & Human Services

Date: August 6, 2018

Re: NETA Application for Recreational Marijuana License

This office has reviewed the submitted plans for the above recreational marijuana establishment. This review is to determine compliance with the Town of Brookline bylaws and regulations for Recreational Marijuana Establishments. Our review finds the following items should be clarified before license is issued:

- Explain in detail the operational separation between medical marijuana and recreational marijuana and demonstrate pilot test for feasibility. Focus area is youth access under 21
- Present ordering app for operation and demonstrated the process. Focus area is marketing and youth access.
- Designate where the customer waiting line for service will be terminated due to crowd size. Focus area is related to injury prevention.
- Outline method of addressing line control to prevent blocking driveways and or residential/businesses entrances. Focus area is related to injury prevention.

Brookline Public Health and Human Services will be notified when renovations and have been completed so we may arrange for a pre-operational inspection prior to a meeting.
