

BEACON STREET GREEN TRANSPORTATION INITIATIVES
More Bike Infrastructure * Safer Pedestrian Access * Robust EV Charging * EV Car Share
 This map outlines EV Charging/EV Car Share Investment for 2019.
 Project developed by Maria Morelli, Senior Planner and Todd Kirrane, Transportation Administrator

Project Specifications
 Investment Partners: Eversource Make-Ready, Electrify America-Greenlots
 Investment Cycle 2, Greenspot EV Car Share.
 10% of 600 parking spaces over a two mile stretch of Beacon will be upgraded to support EV charging installation. Of those 60 parking spaces, 23 will have EVSE installed in 2019:
 10 spaces will be installed with LEVEL 2 ports for public use
 10 spaces will be dedicated to EV Car Share + LEVEL 2 ports
 3 spaces will be installed with DC Fast Charging for public use.
 All capital, operating, maintenance costs would be assumed by private partners, subject to Select Board approval of license agreements.
 Opportunity to scale up project based on demand and utilization
 Brookline will be among the first to make DC fast charging available commercially.
