

Gateway East

July 1, 2019 Construction Update:

MassDOT has given MDR, the project contractor, permission to start work on Route 9 beginning on Wednesday, July 10, 2019.

For the immediate future, there will be a lane closure daily on Route 9 from 10:00AM to 3:00PM until Phase 1 work is completed this fall. All area message boards will be changed to reflect a start date of 7/10/19.

Each day the location of the closure will change slightly depending on the operations and progress. There will be notice of major changes if they occur.

The work starting on July 10 will be near Fire Station 1, which will require a right lane closure of Route 9 eastbound.
