As a longtime Brookline resident, I would like to put into record my support for the proposed project located at 500 Harvard Street. Affordable housing opportunities like these are the reason to me staying a resident of Brookline. Without question, Brookline needs more affordable housing options as many longtime residents are often priced out to other towns and cities.

I have been a resident of another affordable housing project by the same developer for over four years now and it has been a wonderful experience.

Thank you,

Faina
