Hi Maria,

I hope this message finds you well.

I am writing to send you some pictures for context in regard to the scale of 500 Harvard. The pictures are of a 6 story project next to a 3 story building, much like the proposed building on Harvard. The attached pics are on Brighton Avenue and even though Brighton Ave is much wider than Harvard and has a median strip, the building is massive and ruins the charm of the older, smaller apartment buildings next door. unfortunately, seeing this was a reality check of what an affront the proposed Harvard st project is to our neighborhood.

I hope you will share this. Thank you so much.

Anna
