This guide was developed by the Brookline Council on Aging and the Brookline Senior Center to assist seniors and their families/caregivers in negotiating the complex world of eldercare. There are an enormous amount of resources available to individuals over age 60 in the Greater Boston area, but attempting to locate and coordinate these resources can often be an overwhelming and frustrating task. We encourage you to use this material as a starting point. If you need more information, contact the agencies directly for more information and as always feel free to contact us. Our professional social work staff are available free of charge to assist you.

With recent budgetary cuts and shifts in funding, the information you receive today may often be invalid tomorrow. We are committed to providing the most accurate and up to date information possible. If you find that any information in this guide is incorrect or there is additional information you think should be included, please contact Olga Sliwa at Council on Aging (617) 730-2768.

The best advice for staying healthy is to challenge your mind, be physically active, and keep connected to family, friends, and social organizations. All of this happens at the Senior Center, so if you are not already a regular, stop by soon!

Disclaimer: This guide includes a general description of services beneficial to Brookline seniors. Inclusion does not represent a recommendation from the Brookline Council on Aging or the Brookline Senior Center, but is for your assistance in obtaining information and services. We do encourage your feedback (both positive and negative) so we can consistently provide updated information.
The Brookline Council on Aging is a Town agency that promotes active and healthy aging. We are dedicated to enriching the aging experience for Brookline seniors over the age of 60.

Our goal is to help seniors maintain their independence and continue to be active members of our community.

We welcome all who have questions regardless of age, gender identity and sexual orientation, income, disability, ethnic or religious background.

We provide a rich, diverse environment with a wide range of opportunities, programs and services.

We believe wholeheartedly in enhancing growth, dignity and a sense of belonging while encouraging individual contribution and sharing of life experiences.

We recognize the efforts of all our program collaborators and are grateful for their support.

The Town of Brookline does not discriminate on the basis of disability in admission to, access to, or operations of its programs, services or activities. If you need assistance or special accommodations, please contact the Council on Aging office at 617-730-2777 or the ADA coordinator Lloyd Gellineau at 617-730-2326 or TTD at 617-730-2327.
ADULT DAY HEALTH PROGRAMS

Adult Day Health (ADH) programs offer frail seniors a place to receive medical care, as well as an opportunity for increased socialization.

ADH programs may also be a source of respite to caregivers for seniors who are unable to remain alone at home during the daytime hours.

ADH program staff may consist of nurses, social workers, recreational therapists, certified nursing assistants, physical and occupational therapists, and dieticians. Program staff will also work closely with an individual's primary care physician to assure the best possible plan of care.

ADH offerings vary by program, but usually include:
- breakfast, lunch and an afternoon snack
- nursing care including medication administering/reminders, monitoring of existing medical conditions and medical treatments
- daily activities such as exercise, arts and crafts, discussion groups, outings to local restaurants, shops and cultural events
- personal care such as assistance with bathing and dressing
- door to door transportation (Transportation cost will differ for wheelchair bound participants and is not listed for the programs.)

MassHealth (Medicaid) and private pay are the two most common sources of payment for ADH programs. Private pay costs vary by program. Limited assistance may also be available through your local Aging Services Access Point (Springwell for Brookline).

ADVANCE DIRECTIVES

HEALTH CARE PROXY

- A health care proxy is a legal document that allows you to appoint a health care "agent" to make or communicate medical decisions on your behalf, in the event that you are unable to do so. Your health care agent can be anyone whom you trust, except an employee of a health care or long term care facility in which you are a patient or resident.
- It is important that you clearly communicate your wishes to your health care agent, either verbally or in writing while you are still physically and mentally competent to do so. Even though your written wishes (also known as a living will) are not legally binding in Massachusetts, they can act as a guideline for your health care agent or physician.
- Remember that your health care agent may be very emotional at the time that major medical decisions need to be made. Therefore it is important to choose someone who will vocalize your health care wishes rather than their own. This is especially important with regard to life sustaining treatments such as, artificial respiration (ventilators) and feeding tubes.
- Your health care agent only becomes active once a doctor has determined that you are unable to make decisions on your own behalf.
- You can obtain a health care proxy from your physician or hospital. Forms are also available through the Brookline Council on Aging.

If you require assistance in completing your health care proxy, contact the Brookline Council on Aging at 617-730-2777.

LIVING WILLS

- A living will is a written statement in which you can outline your health care wishes related primarily to the withholding or withdrawal of life sustaining treatments.
- Living wills ARE NOT LEGALLY RECOGNIZED in Massachusetts. However, they can serve as a written guideline for the person that you have chosen to be your health care agent (see above).

COMFORT CARE (CC)/DO NOT RESUSCITATE (DNR) FORM

- Legally recognized, statewide form that verifies an individual's decision to not be resuscitated. Your physician can provide you with more information regarding resuscitation methods.
ADVANCE DIRECTIVES

CC/DNR Form (continued)

- You and your physician, authorized nurse practitioner or physician’s assistant must complete the CC/DNR form jointly.
- The completed form MUST be posted on either your refrigerator or on your bedside table. In an emergency, ambulance drivers must see the actual form in order to legally respect your wishes.
- As of January 2007, you no longer have to produce the original copy of the completed form. Photocopies are now legally acceptable.
- You or your appointed health care agent can revoke your DNR/CC form at any time and resuscitation efforts will then be made.
- The DNR/CC form also includes a detachable section that can be worn like a hospital-like ID bracelet if you want to assure that your wishes are respected when traveling outside the home.
- Forms are now accessible online at www.mass.gov/dph/oems but still must be completed by an authorized medical provider. If you do not have computer access, contact your physician’s office to obtain a DNR/CC form.

Massachusetts Medical Orders For Life-Sustaining Treatment (MOLST)

- MOLST is a medical order used by clinicians for patients with serious advancing illness in Massachusetts. The form documents the patient’s decisions for their care based upon their current condition. It is currently being used in some hospitals and skilled nursing facilities.
- The form provides clear instructions from a physician to other health care providers about the types of treatment a patient wants or does not want to be given to keep them alive near the end of life.
- The form is filled out by the patient’s physician after a discussion with the patient. It is based on the patient’s preferences and can be changed by the patient at any time, by requesting a new form to be filled out. It is signed by both the patient and physician.
- Forms and information about MOLST are available online at http://molst-ma.org/

PLEASE NOTE: Each state legally recognizes different forms of advance directives (i.e., a Massachusetts Health Care Proxy may not be legally recognized in Florida). If you regularly spend extended periods of time in another state, please be sure to inquire about and complete the legally recognized advance directives for that state.

ASSISTED LIVING FACILITIES

- Type of alternative housing that offers a combination of private "apartment style" living with a variety of supportive services such as meals, assistance with personal care (i.e., bathing, dressing), housekeeping tasks, and social programming. These additional services are often included in the base monthly rental fee.
- Studio, one bedroom or two bedroom units may be available. Most units offer a private bathroom and a small kitchenette.
- Monthly rental fees range from approximately $3000-$7000 or more depending on the size of your unit and the additional services included.
- Services vary widely amongst facilities. It is important to make a list of the services most helpful to you and to then contact individual facilities regarding availability and cost.
- Historically Assisted Living Facilities (ALF's) were primarily private pay facilities. However, Masshealth (Medicaid) may now cover the cost at some ALF's if you qualify for the Group Adult Foster Care (GAFC) program. Contact Masshealth (800-841-2900) regarding eligibility criteria for the GAFC program.
- Many ALF's also have a few units reserved for low-income individuals; however, you must meet certain income criteria. There is often a waiting list for these units. Individuals who qualify will pay a reduced monthly fee for their unit.
- Massachusetts' ALF's are regulated by the Executive Office of Elder Affairs (EOEA).

BEREAVEMENT GROUPS

Grief following the loss of a loved one is a natural, healthy reaction. Bereavement groups offer grieving individuals an opportunity to benefit from the mutual support of others who have also experienced a loss. Sharing your thoughts and feelings about your loved one and the loss can be a wonderfully healing experience.

Some things to remember:
• There is no timetable for grieving. The amount of time it takes to grieve the death of a loved one varies from individual to individual and may be related to the length of time you have known the deceased and how closely you were involved with them.
• The first year may be particularly difficult as the holidays, birthdays and anniversaries pass. These occasions often cause a great deal of distress in that our loved one is no longer physically here to share in these happy times with us.
• You may also experience unexpected feelings of denial, anger, guilt, and relief related to your loss. These are all normal feelings associated with grieving.
• As the grieving process progresses, you will have good days and bad days. In time, you should start to feel some relief from the sadness.
• Prolonged eating or sleeping disturbances, difficulty concentrating, lack of energy and intense feelings of sadness may be indicators that your grief has turned to depression. If you think you may be experiencing symptoms of depression related to the loss of a loved one, please contact your health care provider to discuss treatment options.

If you would like more information on bereavement groups, please contact:

Brookline Recreation offers a number of programs geared toward adults including aquatic programs, health and wellness programs as well as day trips. Please call them for a catalogue of their programs. You may register for their programs at the Recreation Department, by phone, or visit their website: http://www.brooklinerec.com/ 

Rake Our Leaves is a Fall program for Brookline residents to hire students who are available to help with raking and the removal of fallen leaves. The resident must register with the Recreation Department (617) 730-2069. The Recreation Department will provide a list of students in the program. The homeowner and /or student (or their parents) negotiate the details of the commitment with regards to time, amount of space to be cleared and compensation for the work. Students are available after school and on weekends, not during school hours.

Shovel Our Snow is a Winter program for Brookline residents to hire students who are available to help with snow removal. The resident must register with the Recreation Department (617) 730-2069. The Recreation Department will provide a list of students in the program. The homeowner and /or student (or their parents) negotiate the details of the commitment with regards to time, amount of space to be cleared and compensation for the work. Students are available after school and on weekends, not during school hours.
CAREGIVER RESOURCES

Providing care for a loved one can be a wonderful and fulfilling experience. However, it can also be overwhelming and a source of great stress. Caregivers commonly experience feelings of guilt, embarrassment, helplessness, and anger, which create the kind of stress that can lead to caregiver “burn out”. There are ways to help reduce stress and prevent or alleviate “burn out”. Here are some helpful tips for caregivers:

TIPS FOR CAREGIVERS

- Don’t be afraid to ask for help. Asking for help is a strength not a weakness.
- Speak to family and friends about your feelings or join a support group. Support groups are very beneficial because you have the opportunity to share your experience with others who have experiences similar to your own.
- You will be able to provide better care for your loved one if you make sure all of your physical and emotional needs are being met.
- You can take care of yourself by eating well, exercising, and getting plenty of sleep. This combination of self-care will reduce stress. Also, try to engage in an activity you enjoy daily in order to enrich your life.
- Try to stay positive. Instead of looking at what your loved one can no longer do, look at what he or she is still able to do.
- Find the humor in situations when you can.

Clutter by the simplest definition is “too much stuff.” Unfortunately, anyone who has issues with clutter knows that disposing of excess items is not as “simple” as it may sound.

Often individuals are emotionally attached to items they received as gifts or to items that have sentimental value. Individuals may also find it difficult to part with items that they think might be useful to someone else or that they feel they themselves may need again “in the future.” There may be feelings of security attached to “having” the items and sometimes tackling the clutter simply feels too overwhelming and you just don’t know where to start.

There is obviously a continuum when it comes to clutter and it is important to be able to assess the impact that clutter has on your daily life. If you have to move piles of items off of chairs in order to sit down or your bills have not been paid lately because you cannot find them amongst piles of paperwork, then your quality of life is being negatively impacted and it may be time to seek out some assistance.

Another reality of living with too much clutter is that your perception of the clutter eventually shifts and you become so used to “seeing” the clutter that you simply DO NOT “see” it anymore.

In extreme cases where individuals and their homes have just been overwhelmed by clutter, the situation may pose a health and public safety risk to others. For example, items being piled on and around the stovetop could potentially cause a fire. Subsequently, rescue personnel may be at risk when trying to aid these individuals due to the excess clutter.

In such extreme cases of hoarding, legal action may be taken against individuals in order to protect them as well as the surrounding community. This could include a court order to clean up the property or an actual condemnation of the unit if it fails to meet minimum fire and sanitary codes.

Asking for and being willing to accept help is crucial. Allowing someone to simply do it for you will most likely leave you with feelings of regret, loss and a lack of control. However, having someone present who does not have

the same emotional attachment to the items that you may have can help to keep you moving in the right direction. The person may be a friend, family member or a paid professional who can talk with you if you get “stuck”. They can pose the important questions about the usefulness or need for an item. Some people also find it helpful to have others “handle” items for them because a stronger attachment can sometimes be created just by holding an item.

GENERAL TIPS FOR TACKLING THE CLUTTER

1. **It doesn't matter where you start.** You may feel more motivated to start in a room that you utilize more often, however it is up to you.

2. **Break a large room down into manageable parts.** For example sort through one dresser drawer at a time instead of the whole dresser or work on clearing off the kitchen table instead of trying to reorganize the whole kitchen. Even the smallest progress will result in a feeling of accomplishment that will hopefully motivate you to continue.

3. **Schedule a fixed amount of time to complete your task.** Spending all day with these kinds of tasks can be tiring and overwhelming. You will be less likely to take it back up again if you burn yourself out.

4. **Set up 3 big boxes or trash bags labeled: Keep, Donate/Give away, and Trash.** It is best to keep the process simple. However, if you are motivated enough to follow through you could identify a fourth category labeled “Sell” for items to be sold on Ebay or Craig’s List.

5. **Employ the “one touch” rule.** Only “handle” an item once to decide in which pile it belongs. There is no “I’ll decide later” pile, that pile is called clutter. In addition, make a commitment to yourself that you will not second guess your decisions. Once an item’s fate has been decided, do not move it from one pile to another.

6. **Ask for help.** Depending on the size of the job, it may simply be too overwhelming for you to handle on your own. Asking for help is a strength, not a weakness, because it reflects your willingness to change.

DISABILITY RESOURCES

Decreased vision, hearing loss, dementia and difficulty walking are all examples of disabilities that seniors may experience as they age. Often these changes are simply associated with growing older and are not viewed as truly disabling conditions. Such physical and mental changes are significant in that they may limit an individual's ability to cook, go shopping, drive, read, manage their finances, and/or engage in social activities with others.

While there are many organizations that deal exclusively with the needs of seniors, the following organizations may have additional information or recommendations regarding assistance with a specific disability issue such as vision loss or hearing loss.

DONATIONS

Donating items to local agencies and organizations is a wonderful way to “go green” and do your part for the environment. By recycling unwanted items you can clear some of the clutter from your own life, help another individual in need and do your small part to help reduce the waste in our landfills. So what are you waiting for...go raid those closets!

Tips for donating items:
✓ You may need to contact several agencies since some organizations can only accept/use certain types of items.
✓ Check the agency’s website to see if they have a donation “wish list.”
✓ Inquire as to whether an agency can pick up items or if they need to be dropped off at a certain location.
✓ Many organizations offer receipts that allow the donor to claim a tax deduction.
✓ And most importantly, remember to donate only items that are in a condition in which you would wish to receive them yourself.

If you are interested in donating items to an organization, please contact:

DRIVER SAFETY

- Driving generally symbolizes independence and freedom in our culture. Therefore the decision of when to limit or to stop driving can be tremendously difficult.
- Many individuals experience psychological and physiological changes as they age. Over time these changes may impair one’s ability to safely operate a motor vehicle.
- A medical diagnosis alone is not reason enough for an individual to cease driving. A thorough medical assessment in addition to an assessment of one’s current driving skills should all be considered when making recommendations about driving limitations.
- Often adjustments to an individual’s driving schedule can be made such as limiting your driving to daylight hours, driving on roadways that are less traveled, driving at times when traffic is known to be lighter, or simply reducing the amount of time spent on the road.
- Conversations around driver safety and driving limitations can be difficult and it is generally easier to have these conversations with someone you trust such as your spouse or your physician.
- The best way to address the issue of safe driving is to initiate a conversation before safety becomes an issue! The issue will be less emotionally charged and some future level of agreement may be possible.
- If there is a recommendation around limiting one’s driving, consideration should also be given in advance to alternative means of transportation available in the area.
- If possible, it is also a good idea to observe an individual’s driving habits over time. It will be easier to identify any change in driving behavior that might signal a problem as a result.
- Remember that simply “taking away” someone’s license or disabling their car does not mean that the individual will stop driving. Preserving an individual’s dignity is, as with any decision, of the utmost importance.

DRIVER SAFETY

Mass Registry of Motor Vehicles Division of Medical Affairs:

- Massachusetts is a "self-reporting" state which means that it is your responsibility to tell the RMV if you have a condition that impairs your ability to drive safely. The licensed individual is also expected to refrain from driving for the duration of the impairment.
- Massachusetts driving policies are made without regard to age. Therefore, there are no policies based on age alone.
- Please note that there is no legal requirement for a physician or a family member to report a licensed individual whom they feel may be unfit due to a medical condition.
- However, if you feel that an individual is comprised in some way and unable to safely operate a motor vehicle, you can make a report in writing to the RMV. The RMV will then generally conduct an assessment of an individual’s competency to drive by requesting an assessment from the individual’s physician.
- The RMV will accept reports from family members, friends, physicians, or other interested third parties from the community. However, they will not accept anonymous complaints.

Beth Israel Deaconess Hospital DriveWise Program 617-667-4074

- Offers a comprehensive, objective evaluation of the driving performance of individuals of all ages who may have compromised driving skills due to impairments in motor, cognitive, perceptual and/or sensory abilities.
- Evaluation includes a social work assessment, neuropsychological assessment, occupational therapy assessment, on-the-road exam, and follow-up with a social worker during which the program’s written recommendations are reviewed.
- Some individuals may simply require educational materials on safe driving or referrals to training programs to improve driving skills.
- If termination of driving is recommended, the program provides information on alternative forms of transportation as well as emotional support around the transition.

Newton Wellesley Hospital Drive Safe Program 617-243-6172
- Offers an evaluation conducted by an occupational therapist.
- A physician’s prescription for an occupational therapist consultation and a diagnosis is required.
- Evaluation includes a comprehensive assessment of the visual, perceptual, cognitive, and physical skills necessary for driving as well as knowledge of the rules of the road and driving safety.
- If the patient demonstrates the prerequisite skills for driving, the occupational therapist will coordinate a behind the wheel assessment that is conducted by a licensed driving instructor.
- Follow up recommendations are then sent to the referring doctor.

Spaulding Rehabilitation Hospital 781-843-1145
Pre-Driving Evaluations
- Offers evaluation conducted by an occupational therapist
- Evaluation includes use of a driving simulator system with steering wheel, accelerator and break pedals for reaction time testing.
  Evaluation also includes testing of your depth perception, motor planning and problem solving skills.
- Must have completed vision testing prior to evaluation.

DURABLE MEDICAL EQUIPMENT

- Durable Medical Equipment (DME) refers to any medical equipment ordered by a physician such as a cane, walker, wheelchair, grab bar, shower seat, or commode.
- DME may be covered by your health insurance if you have a "qualifying diagnosis" and your physician and durable medical equipment supplier are enrolled in Medicare. You must speak with your physician to determine whether or not you qualify for coverage on a particular piece of equipment, and Medicare (800) 633-4227 to get a Durable Medical Equipment supplier that participates in Medicare in your area.
- It is preferable for your physician’s office to order equipment on your behalf if possible because a prescription or a “certificate of medical necessity” (CMN) may be required from your physician.
- Most DME can be purchased privately through a local DME provider, if your physician does not believe that you qualify for coverage under your health insurance.
- A three-in-one commode (“bedside” commode) is the only bathroom equipment covered by Medicare. Other bathroom equipment such as shower seats, grab bars, and hand-held showers are unfortunately not covered under your Medicare benefit, even if they are medically necessary and ordered by a physician.
- Some charitable organizations offer “recycled” or used DME for a small donation/delivery fee. High demand items such as wheelchairs may have a waiting list, but it is a wonderful way to obtain more costly items if you do not qualify under your health insurance.

ELDER ABUSE

- **Elder abuse** is a widespread, but often underreported problem in the United States today. Elder abuse may involve physical, psychological or sexual abuse, financial exploitation, and intentional or unintentional neglect of an individual over the age of 60.

- Elder abuse and/or neglect can occur in a care facility or in one’s own home. The perpetrators may be strangers or care providers; however, most often the perpetrators are family members. Family members may include one’s spouse, siblings, adult children or grandchildren.

- While the abuse may simply be the continuation of a long-standing relationship pattern between the elder and the perpetrator, abusive behavior is not acceptable and must be reported to the appropriate agencies.

- Increased dependency related to an illness in an elder is often a precursor for abuse. The resulting high level of caregiver stress can often lead to incidents of abuse.

- **Physical abuse** may involve slapping, hitting, punching, kicking, or forceful restraint of an individual. Indicators of physical abuse may be cuts, bruising, and/or broken bones.

- **Psychological abuse** may involve threatening an individual, denying them access to family and friends, denying them privacy in their home, belittling, shaming and/or embarrassing the individual publicly or privately.

- **Financial exploitation** may involve a caregiver using the senior’s funds to make unauthorized purchases for themselves or others, not paying an elderly individual’s monthly bills, or not allowing the individual to use his/her own money to make purchases for themselves.

- **Neglect** can be intentional or unintentional on the part of the caregiver. Intentional neglect may involve the purposeful withholding of food, medication, and/or basic care needs. Unintentional neglect is often the result of the caregiver’s inability to provide the elder with necessary assistance such as help with toileting.

- Whether the neglect is intentional or unintentional, the resulting consequences put the elder at risk and the neglect must be reported.
ELDER ABUSE

- Often reports of unintentional or “benign” neglect can result in obtaining additional support or respite services for the elder and their caregiver.

- **Self-neglect** involves the intentional neglect of self by a competent individual who understands the consequences of their behavior/decisions.

IN AN EMERGENCY SITUATION WHERE THERE IS IMMEDIATE DANGER, CALL 911.

EMERGENCY PREPAREDNESS

Emergency preparedness generally refers to being prepared to survive after a disaster has occurred.

It is easy to assume in today's climate that emergency preparedness refers to surviving a terrorist attack. However, there are many other events that may require basic preparedness. Hurricanes, blizzards, or public health alerts are just some examples of situations that may require you and your family to be better prepared.

Many cities and towns within Massachusetts now have emergency preparedness coordinators who work with hospitals, police and fire departments, other community agencies and the general public to assure that there is a comprehensive plan in place in the event of an emergency.

Federal, state, and local agencies have produced lots of written materials to educate the public around how to prepare for an emergency and it is important to familiarize yourself with some of this basic information. Please remember, however, that these agencies have to consider the worst case scenarios while doing their planning so try not to become alarmed or overwhelmed by the content.

The two major recommendations are that individuals/families should prepare a FAMILY DISASTER PLAN and a DISASTER SUPPLY KIT.

A basic FAMILY DISASTER PLAN should include:

▪ how family members can stay in contact with one another if separated by an emergency/disaster
▪ an out-of-state friend/family member who can act as a contact person for family members in the event that emergency is localized and family members are unable to reach one another directly
▪ a meeting place for family members if you cannot return to your home
▪ response strategies to the dangers of different emergency situations
▪ knowledge of emergency preparedness plans for your children's schools and your workplace
EMERGENCY PREPAREDNESS

☞ A basic DISASTER SUPPLY KIT should include:
  ▪ A three day supply of water (one gallon per person, per day)
  ▪ A three day supply of nonperishable food (canned or dry goods that do not require cooking or refrigeration)
  ▪ A manual can opener
  ▪ Battery powered radio/TV and extra batteries
  ▪ Flashlight and extra batteries
  ▪ Matches in a waterproof container
  ▪ First aid kit
  ▪ Cash and coins
  ▪ Important documents (identification, birth certificates, etc. in a waterproof container)
  ▪ Extra clothing (appropriate for the climate in which you live)
  ▪ Personal hygiene items (moist towelettes and garbage bags)
  ▪ Other items such as prescription medication (if possible), eyeglasses, hearing aid batteries

☞ While the disaster supply kit items listed here are not exhaustive, they provide a basic idea of items you will most need in an emergency.
☞ Remember to check expiration dates on stored items every six month to assure that your supply is usable.

MONEY MANAGEMENT PROGRAMS

- Financial tasks such as writing checks, balancing a checkbook, or going to the bank may become more difficult for individuals to manage as they age.
- Money Management programs are available to seniors who require assistance with these kinds of tasks often due to health related changes in vision, memory, and/or ambulation.
- Trained, insured volunteers generally provide services under the supervision of a program employee.
- Free assistance is often available to low or moderate-income individuals. However, you may have to meet certain income guidelines to qualify.
- Many elder law attorneys, private geriatric care managers or certified financial planners will also provide this service for a fee.

FITNESS

- Exercise is an important dimension of our health at any age. Regular exercise can increase strength, improve mobility, cardiovascular health, and balance, decrease isolation and improve one’s mood.
- Unfortunately the word exercise often conjures up notions of strenuous activity and a "no pain, no gain" mentality.
- The truth is that exercise must be tailored to the individual in order to be effective. For example, a homebound senior with mobility problems may benefit from 15 minutes of gentle chair exercises a day, while a more active senior may need to incorporate some weight lifting exercises into their weekly routine to maintain strength.
- Remember WALKING continues to be one of the best forms of exercise and it costs NOTHING!
- Regardless of the type of exercise in which you plan to engage, it is ABSOLUTELY IMPERATIVE that you consult with your physician first to address any potential health risks.

FOOD STAMPS  www.gettingfoodstamps.org

PLEASE NOTE: THERE HAVE BEEN MANY CHANGES TO THE FOOD STAMPS PROGRAM IN THE PAST YEAR TO IMPROVE ACCESS AND ELIGIBILITY SO BE SURE TO READ THE FOLLOWING INFORMATION CAREFULLY TO SEE IF YOU CAN BENEFIT FROM FOOD STAMPS.

• Food stamp benefits provide you with monthly funds to buy nutritious, healthy food for your household.
• Unlike many other assistance programs, there is no true income guideline for the food stamps program.
• The amount of food stamps you receive is not based solely on your monthly household income. The guidelines also take your monthly housing costs, utility costs, and medical costs into consideration.
• The ASSET TEST HAS BEEN ELIMINATED for most Massachusetts elderly and disabled applicants who meet certain income guidelines (gross monthly household income of less than 200% of the federal poverty guideline). This means that the Department of

Transitional Assistance (DTA) will not consider the amount of money you have in the bank, your car, your retirement accounts, your home or other assets when assessing your eligibility.

- The definition of a “household” for food stamps purposes is individuals who buy and prepare food together. Spouses who live together are automatically considered a “household”. However, elderly siblings who live together but may buy and prepare food separately could each apply for their own food stamps benefits.

- Please note that a new, simplified two page application for elderly individuals (age 60 and older) is now available.

- You can apply for food stamp benefits in person or via mail. You will be asked to provide proof of income, housing and utility costs, and medical expenses.

- If you have access to a computer, you can determine your eligibility and print out an application from the website.

- If approved, you will receive an Electronic Benefits Transfer (EBT) card that looks like a credit card. When you reach the check-out aisle in the supermarket, you simply slide your card through the credit card machine, enter your Personal Identification Number (PIN) and your monthly food stamp benefit amount is deducted from the final cost of your bill.

- Most elderly and disabled individuals with fixed incomes will now only have to reapply for benefits every 24 months.

- H/EAT Program: special food stamps program that automatically qualifies food stamp households for a $1 fuel assistance “benefit” if they are not already receiving the highest utility deduction. Generally this would apply to elderly or disabled applicants whose heating costs are included in the cost of their rent. If you qualify, DTA will automatically enroll you in this program and give you the higher utility deduction. This should result in a significantly higher monthly food stamps benefit.

If you would like to apply for food stamps, please contact:

FRAUD

• Scams come in many shapes and forms and there are far too many variations to enumerate here. You might receive a fraudulent offer via telephone, mail, fax, email, or in person. Fraudulent offers may come from phony charities, lotteries/sweepstakes, mail order companies, or phony health insurance or life insurance plans.

• One of the most important things you can remember to protect yourself from being scammed is “IF IT SOUNDS TOO GOOD TO BE TRUE, IT PROBABLY IS.”

• Individuals who perpetrate fraud are VERY GOOD at what they do. Scam artists are generally very nice and may not pressure you to “give them money” during your first encounter with them. Very often they will attempt to establish a “relationship” with you by engaging you in pleasant conversation about your personal life because they understand that “you catch more flies with honey than with vinegar.”

• If you feel you have been scammed, REPORT IT! Many people feel ashamed to call the police, but it is important to alert police if a crime has taken place. At the very least you may be able to prevent another person from being a victim.

• Here are some general rules of thumb that will help to protect you against many scams:
  ✓ TRUST YOUR INSTINCTS. If something doesn't feel right, it probably isn't.
  ✓ DO NOT give out personal information about yourself including your social security number, your credit card number or bank account number unless YOU initiated the contact and you are familiar with the business.
  ✓ DO NOT send money to anyone who promises you money or a “prize” in return. Another red flag is that scam artists often ask for money to be sent immediately via wire transfer, or via UPS or FedEx to cover the cost of so-called “taxes.”
  ✓ If saying NO directly is too difficult for you, tell solicitors that you have to consult with your family or your “attorney” prior to making any financial decisions. Even if this is not true, it may scare off someone with a hidden agenda. Unscrupulous individuals will not want you to consult with anyone else for fear of being exposed.
FRAUD

✓ REMEMBER: A legitimate business or organization should NEVER try to force a financial decision on you and should respect your right to decline any offer.

If you feel that you are being solicited by an unscrupulous individual or organization, please contact:

- GAS: Citizens Energy Distrigas Heat Assistance Program 866-427-9918
- Main Number: 617-338-6300

- Eligible individuals will receive either a one-time, reduced cost oil delivery per heating season, a one-time, $150 utility bill credit per heating season for those who heat with natural gas, or 100 gallons of oil.
- There are no strict income guidelines. You will be asked to complete an application regarding your current hardship and inability to afford fuel. A determination will be made at that time. A copy of your gas/utility bill is also required.
- You must also meet the following criteria:
  ✓ You are a resident of Massachusetts
  ✓ You heat with oil or natural gas
  ✓ You are not eligible for or have exhausted your fuel assistance benefit for the year, you still may be eligible for 100 gallons of fuel

Massachusetts Energy Consumers Alliance 617-524-3950
- Mass Energy offers a Heating Oil Program through which you can save 15 to 30 cents/gallon on your heating oil.

FUNERAL PLANNING

- Planning a funeral for yourself or for someone else you love can be an emotionally overwhelming and confusing experience. It can also be financially draining.
- Our culture is not one that embraces the process of death and dying. As a result we are not encouraged to plan appropriately in advance for this reality of life as we are around other milestones, such as the birth of a child or retirement.
- Making arrangements in advance (also called pre-need planning) can be invaluable, if possible.
- The first step in the planning process is to think about what kind of funeral or memorial services you would like to have (if any). Many individuals also choose to donate their body to science as an alternative to more traditional services and burial.
- Religious and/or cultural traditions or values may play a role in the decisions you ultimately make. Religious officials are a good resource and can generally provide counseling around religious traditions as well as support around other more spiritual end of life issues.
- Once you have formulated an idea of what you would like, the next most important thing is to share that vision with close family members or friends since they may be the ones carrying out your wishes. You may also want to ask certain individuals to be involved in the service at this time.
- You may find that it is easier to address this subject in a more matter of fact, practical style or it may be an opportunity for you to have some more emotionally honest conversations with loved ones. Regardless of your approach, it is a critical component of the planning.
- If you find that talking with family and friends is just not possible, the next best option is to put your wishes in writing. While this may not be legally binding unless it is in the form of a will, it will at least give family members and friends a better picture of how you would like things to be handled.
If you decide that you would like a funeral or memorial service, the next component to consider is obviously finances. Many people have life insurance that will contribute to the overall cost, but it is also important to note that Social Security, Masshealth, and the Veteran’s Administration offer small death or funeral benefits to eligible members.

As with any other major life purchase you would make, it is wise to “shop around” to assure that you have found the best prices for the best services. This may involve contacting and/or meeting with a few local funeral home representative to discuss your wishes. As in any industry, there will be dishonest individuals who try to take advantage of someone in a vulnerable state. You must rely on your instincts and be sure to question all statements that include “should” or “require.” There are many online resources available today that can confirm what is “required” based on the state in which you live.

As a measure of consumer protection, the Federal Trade Commission requires that funeral homes give you a price list in writing, if you request one in person. You may also request price information via telephone. Certain costs may be guaranteed while others may change over time so be sure to inquire directly.

Please be aware that you are also no longer required to purchase a casket through the funeral home. If you have decided on cremation, caskets can be rented in Massachusetts as well for the purposes of a viewing.

If you are someone who regularly spends time in another state, it is important to inquire about transportation arrangements if you are not to be buried in that state.

If you have decided that you would like to donate your body to science (this is different than organ donation), you yourself must make those arrangements in advance. Many teaching colleges and universities require that you have a contingency plan in the event that they do not need additional research subjects at the time of an individual’s passing. It is imperative that you contact the institution directly to inquire about their specific guidelines.
FUNERAL PLANNING

- The last component of planning that is important to consider is the legacy that you will leave behind. Consider if there is any “unfinished business” that you would like to tend to in terms of unspoken words with family members or close friends. You have the opportunity to give someone a wonderful gift by having these conversations.
- Another important way to show family or friends that you care is to make sure that all your important paperwork is in order and that the key individuals know how to access it.
- Important paperwork to compile may include a will, insurance policies, birth certificates, marriage certificates, discharge paperwork (for veterans), social security numbers, and a complete listing of assets (property, bank accounts, safe deposit boxes, etc.).

- For non-service related deaths, the VA currently may pay two separate amounts toward costs of (1) burial and funeral expenses and (2) plot-interment allowance. The plot-interment allowance is $734 (sum will increase annually). Amounts listed below are available for funeral and burial expenses:
  - If not properly VA hospitalized at time of death or death prior to October 1, 2011: $300
  - If properly VA hospitalized: $734 (sum will increase annually)
- The plot-interment allowance is $150 for deaths prior to December 1, 2001. If the death happened while the veteran was in a VA hospital or under VA contracted nursing home care, some or all of the costs for transporting the veteran’s remains may be reimbursed. Certain other criteria must be met in order to qualify.

Health Information Websites

- Health-related websites allow the general public to research information on a variety of medical diagnoses, health conditions and medications.
- While the information on these websites can be helpful in further understanding a diagnosed medical condition or a prescribed medication, the websites are in **NO WAY intended to replace consultation with a licensed health care provider**. Please be sure to contact your health care provider directly about any health related concerns you may have.
- Be sure to **consider the source** of the information. There are **MANY** websites available with health related information, but not all will provide “trusted” information. Generally government websites (websites that end in `.gov`) or websites that are sponsored by known colleges/universities, or health care providers/organizations are considered more reliable than websites established by unknown individuals.
- There are also websites that are affiliated with specific diseases that can provide information relating to those specific conditions.

HEALTH INSURANCE
MASSHEALTH/MEDICAID

❖ State health insurance program for low-income individuals or couples.
❖ Income and asset guidelines vary from state to state. Income guidelines are adjusted every year in accordance with the federal poverty line.
❖ Income eligibility is calculated on your gross monthly income. Your gross monthly income is considered your income prior to any deductions such as the monthly premium deduction for Medicare Part B.
❖ SSI recipients are automatically eligible for Masshealth.
❖ Masshealth generally covers medical transportation, adult day health programs and the cost of most long term care facilities (i.e., nursing homes). Assisted living facilities may also be covered for qualified members.
❖ Masshealth no longer covers the cost of outpatient prescription medications. Masshealth members must now enroll in a Medicare D plan for prescription medication coverage. Most Masshealth members are not responsible for paying Medicare D monthly premiums, deductibles, or coverage gaps (some restrictions may apply). Most Masshealth members will only be required to pay a small copayment for each medication (some restrictions may apply).
❖ Masshealth will cover some dental services, eyeglasses and some durable medical equipment.
❖ If you are over the income or asset guidelines, you may still be eligible for Masshealth coverage after you have paid a deductible (commonly referred to as a “spend down”). Your deductible is based on the amount of income or assets you have in excess of the specified guidelines. Your deductible is calculated by Masshealth every six months and must be paid within that six month period. In order to meet your deductible, you must provide proof of the medical costs or expenses for which you have paid during that six month period. Qualifying medical expenses may include doctor visits, prescription costs, medical equipment, adult day health costs, or private pay home health services. Masshealth...

MEDICARE

• This is a federal insurance program. Most Medicare enrollees have paid into the Social Security system through previous or current employment.

• Medicare consists of Part A, Part B, Part C (Medicare Advantage Plans, see page 96) and Part D (prescription benefit, see page 141).

• Part A primarily covers hospital services and is free if you have paid into the Social Security system. There is a Part A deductible for each hospital admission. The Part A deductible for 2015 is $1260 per benefit period.

• Part B primarily covers 80% of outpatient services (i.e., doctor’s visits, x-rays, tests) after members have paid an annual deductible. The Part B deductible for 2015 is $147. Members are then responsible for the remaining 20% coinsurance cost.

• Part B also requires a monthly premium that is usually deducted out of your Social Security check before you receive it. The monthly Part B premium is now based on your income. In 2015 individuals whose income is less than $85,000 per year or for couples whose joint income is less than $170,000 per year will pay a monthly premium $104.90. For individuals or couples with incomes higher than the aforementioned figures, the monthly premium will be higher.

• You can purchase both Part A and Part B if you have not paid into the Social Security system. Contact Medicare directly for information on the monthly cost of purchasing Medicare Part A.

• Medicare implemented an optional medication benefit for Medicare enrollees in 2006 (see MEDICARE PART D Prescription Benefit section, page 141).

• Medicare does not cover: eyeglasses, hearing aids, dental, and long term care/nursing home placement.

MEDICARE C/MEDICARE ADVANTAGE PLANS

Medicare Advantage Plans are health plan options that are administered by Medicare approved, private insurance companies.

Medicare approved plans provide Part A and Part B coverage as well as "extra" incentive benefits such as vision benefits, hearing benefits, and sometimes dental or medication plans (Part D benefits). Medicare deductibles are usually covered as well. However, benefits vary by plan so be sure to inquire.

Unlike original Medicare, you may be limited to certain doctors or hospitals that “belong” to the plan you’ve chosen so be sure to inquire in advance.

Medicare Advantage Plans include: Medicare HMO’s, Medicare Preferred Provider Organizations (PPO’s), Medicare Private Fee-for-Service Plans (MFFS) and Medicare Special Needs Plans.

Medicare Advantage Plans are also known as Medicare “buy-out” insurance plans. Individuals who are enrolled in traditional Medicare (parts A & B) have the option of changing their coverage to the Medicare Advantage Plan of their choice.

Some types of Medicare Advantage Plans may require individuals to identify a primary care physician (PCP) who then manages all of their care, including referrals to any specialists (i.e., cardiologist, eye doctor, etc). Other types of Medicare Advantage Plans may not require referrals to specialists or other providers.

If your plan of choice requires selection of a PCP and referrals, be sure to confirm that your current doctor and hospital belongs to the plan before enrolling, if this is important to you.

Premiums: Medicare Advantage Plan members continue to have the monthly Medicare Part B premium deducted from their Social Security check. This premium now goes to the Plan rather than Medicare. Most Medicare Advantage Plans then also require an additional monthly premium to cover their costs.

MEDICARE C/MEDICARE ADVANTAGE PLANS

☞ Co-payments or Co-insurance: Medicare Advantage Plan members may also be required to pay a fixed dollar amount (co-payment) or a fixed percentage (co-insurance) for all medication, outpatient visits, ER visits, and hospital admissions. Amounts vary by company.

☞ Despite the monthly premiums and co-payments, Medicare Advantage Plans are often less expensive than Medigap plans (see page 98).

☞ Medications: If you join a Medicare Advantage Plan you must take the Medicare Part D coverage offered by that plan.

MEDICARE SUPPLEMENT/MEDIGAP POLICIES

- These are Medicare supplement insurance plans that attempt to fill the “gaps” in traditional Medicare Part A&B coverage. These vary from state to state, so if you have moved to Massachusetts from another state, it is important to check if your plan provides coverage in Massachusetts and what the coverage is.
- There are two types of Medicare supplement plans offered in Massachusetts by 7 private insurance companies: Supplement Core Plans and Supplement 1 Plans.
- The Supplement Core Plans, whose costs range from $95.02 per month to $143.26 per month in 2015, provide the coverage mandated by the state for Supplement Core Plans. The core plans, after the Medicare A deductible of $1,260 per benefit period for inpatient hospital stays of 1-60 days, provide coverage for the daily co-pay of $315 per day for stays of 61-90 days and the lifetime reserve co-pays and add an additional 365 lifetime hospital days. They also add an additional 60 days per year to the 190 lifetime days for inpatient mental health hospital stays, cover the cost of the first three pints of blood and the 20% Medicare Part B charges after the annual deductible of $147 is met.
- Supplement 1 Plans, whose costs range from $176.63 per month to $221.84 per month in 2015, provide the coverage mandated by the state for Supplement 1 Plans. The Supplement 1 Plans provide all the coverage of a Supplement Core Plan while adding coverage for the deductible for inpatient hospital stays, adding an additional 120 per benefit period for inpatient mental health hospital stays and provide coverage for a skilled nursing facility co-pays of $157.50 per day for days 21-100. They also cover the annual $147 deductible for Medicare B and provide coverage for Medicare covered services while traveling abroad.

HEARING IMPAIRMENT

There are varying levels of hearing impairment and individuals often identify themselves according to the following definitions:

**Hard of Hearing** - some indication of residual hearing that may allow an individual to use language with some form of amplification.

**Deaf** - hearing impairment is fairly severe and loss is often congenital and/or occurred before the learning of formal language.

**Late deafened** - onset of impairment is after the spoken language is fully learned and developed. This is the hearing loss most often associated with aging.

If you have any level of hearing impairment, please be sure to visit an audiologist annually. Also remember to advocate for yourself - the more you share, the better others will be able to assist you!

### Hearing Aids: A Recipe for Success*

1. Wear the aids for several hours per day in a quiet environment to adjust to the new sound and to feel comfortable with the earmolds and manipulating the aids: inserting them and removing them, adjusting the controls, etc.
2. Wear them in conversation with one or two people in a quiet setting, watching television, or reading to yourself.
3. Wear them indoors in some minor noise: in the kitchen using an electric can opener, etc.
4. Try wearing them outside in a quiet area, then move to a noisier area. Wear them while driving, walking around a mall, or in small groups.
5. Try wearing them in a large room, at church, talking to several people.
6. Experiment with adjusting volume.
7. Use the aid’s telecoil (T-switch) with the telephone and see if it helps you hear on the phone. You’ll have to experiment with the position of the telephone handset on your ear, since the location of the telecoil varies greatly from model to model.
8. Wear them in a noisy restaurant or at a party.

HOME CARE SERVICES

The terminology related to home care services is often confusing. Here is a brief primer to help you become more acquainted with what services you may actually need.

- **Home care services** generally refer to non-medical services that seniors receive at home.

- **Home Care Workers** are non-medical care providers that assist with shopping, escorting, errands, cooking, and companionship in addition to cleaning and laundry. Some home care workers may also be trained to provide personal care. **Further classifications of home care workers follow.**

- **Certified Nursing Assistants (CNA’s)** - these care providers most often perform **personal care tasks** including assistance with bathing, dressing, toileting, and meal preparation. CNA’s must also pass a state certification exam that allows them to provide personal care to clients in their homes as well as in nursing homes, assisted living facilities, and hospitals.

- **Homemakers** - these care providers perform mostly light housekeeping tasks such as cleaning the bathroom/kitchen, dusting, vacuuming, and laundry. **Homemakers do not provide any personal care** (i.e., hands on care).

- **Home Health Aides** - these care providers most often perform **personal care tasks** including assistance with bathing, dressing, toileting, and meal preparation. Home health aides may also perform some minimal homemaking tasks but it is not their primary function. **Home health aide services may also be covered by Medicare if an individual is eligible for Medicare certified home health services** (see page 91).

- **Personal Care Homemakers** - these care providers have completed additional training that allows them to assist with limited personal care (i.e., bathing and dressing) as well as light housekeeping.

PLEASE NOTE: Many private pay home care agencies have a **minimum number of hours for which you must contract** in order to use their services. Please be sure to ask in advance about any minimum hour.

HOME HEALTH CARE

- **Home Health Care** refers to medical services that an individual may require at home following an illness or a hospitalization.
- **Home health care providers** may include nurses, social workers, home health aides, physical, occupational, and/or speech therapists.
- Your primary care physician must order home health services for you. He/she will then also oversee the services you receive for the duration.
- **Medicare** will usually cover home health services if you are homebound and have an *acute* medical condition that requires medical treatment. HOWEVER your home health agency must be MEDICARE CERTIFIED in order to bill your Medicare for services provided.
- If you do not qualify for Medicare covered home health care services, there are some agencies that will allow you to pay privately for nursing and home health aide services at home. Please be sure to inquire about whether or not an agency’s services will be covered by your Medicare benefit.

TEMPORARY SHELTERS

THINGS TO CONSIDER WHEN SEEKING TEMPORARY SHELTER

✓ Temporary shelters are basically intended to provide a dry, warm overnight bed for individuals. Some shelters may offer additional services during the day such as case management services, assistance with locating permanent housing, medical care, and legal assistance.

✓ A referral from a social service provider is often required and individuals seeking shelter may have to go through an intake interview.

✓ Many shelters have a check-in time (or a “curfew”) as well as a time by which you must check-out in the morning.

✓ The shelter may also require that you “reserve” a bed for yourself by a certain time (generally early that same morning).

✓ Some temporary shelters allow you to stay as many nights in a row as you like while others may have limits on the amount of consecutive days you are allowed to stay.

✓ Some temporary shelters are considered “dry” which means that you cannot be an “active” substance abuser. These shelters often require a referral by a social service provider who can verify your current dry status.

✓ Some temporary shelters only allow men while others only allow women or families so be sure to inquire.

HOMEOWNER ASSISTANCE

Elder homeowners often face the challenge of attempting to balance the cost of maintaining their home with the competing costs of medical care and other daily living expenses. As a result, elder homeowners may believe that selling their family home is the only way to eliminate a seemingly overwhelming financial burden. Worse yet, some seniors may fall victim to one of the many reverse mortgage loans scams that prey on the elderly and usually end in foreclosure. These issues are very complex and the assistance of an expert in the field may be necessary.

If you require additional assistance with homeownership issues, contact:

☞ Homeowner Options for Massachusetts Elders 800-583-5337
(H.O.M.E. program) www.elderhomeowners.org
  • Program for low or moderate income Massachusetts residents, aged 60 or older (aged 50 or older if in jeopardy of losing your home), who own only one residence. The goal of the HOME program is to protect the equity of senior homeowners and prevent foreclosure. The program offers FREE, CONFIDENTIAL, in-home financial counseling services regarding equity conversion and how to pay for health care needs, home repairs and/or necessary adaptations.

☞ Massachusetts Home Modification Loan Program
Metropolitan Boston Housing Partnership (MBHP) 617-425-6700
  • Massachusetts Rehabilitation Commission program that provides loans to elders or other individuals with disabilities to modify their homes for improved access (i.e., installation of ramps, railings, grab bars, shower stalls, etc.)
You may be eligible for a loan if you:
✓ Are a homeowner with a disability or you provide the primary, principle residence for another family member or tenant with a disability
✓ Meet specified income guidelines
✓ Modifications are directly related to the disability of the beneficiary and necessary for the disabled individual to remain at home

HOME SAFETY

- Falls are a leading cause of hospital admissions amongst those aged 65 and older, but they are also one of the most preventable.
- While it is true that people of all ages have accidental falls, the resulting injuries to elderly individuals are often more traumatic (i.e., broken bones, head injuries).
- Changes in vision, hearing, memory, balance, and/or strength can increase one’s risk for falls. Side effects from medications such as dizziness or drowsiness may also increase the risk for falls.
- Adapting your lifestyle and your environment based on these risk factors is the best way to prevent future falls.
- Here are a few tips that will aid in the prevention of falls:
  ✓ ALWAYS use a cane or walker that has been prescribed by your physician.
  ✓ Move slowly when shifting your position from sitting to standing or from lying to sitting to standing positions.
  ✓ If you use reading glasses, be sure to take them off before walking around.
  ✓ Make sure that rugs and floor coverings are secured along the edges and tack down worn spots. Avoid using throw rugs or bathroom mats on which you can catch your foot or walker.
  ✓ Install handrails or grab bars near the bathtub and toilet and use a non-slip mat inside the bathtub or shower.
  ✓ Make sure that all stairways or doorway entrances are well lit. A line of white paint on the edge of each step can also help better define the stairs for someone with vision loss.
  ✓ Install railings or banisters for all indoor and outdoor steps.
  ✓ Secure electrical cords to the walls or moldings, if possible.
  ✓ Make sure that there are clear pathways in and out of the home, at the bottom and top of all stairways, as well as in and out of the bathroom, kitchen and bedroom.

HOSPICE CARE

- Hospice services are available to individuals who have a life threatening illness with a limited life expectancy (generally 6 months or less).
- Hospice is designed to offer palliative care versus curative treatment.
- Hospice typically takes place in one’s own home with a focus on providing care and comfort to an individual during the final days of their life. Pain control/symptom management and maintaining quality of life for the patient are the primary goals.
- Hospice care can also take place in a long-term care facility (nursing home/assisted living). Long-term care facilities often have contracts with hospice agencies through which they provide the accommodations and the hospice agency provides all the hands on care. The location of service is dependant upon the patient’s care needs and the availability of caregivers.
- The hospice care team usually consists of the individual’s physician, hospice nurses, social workers, home health aides, a chaplain, and respite volunteers. The hospice team works closely with the patient and their caregivers to assure that both of their physical, emotional, and spiritual needs are met.
- Please note: “Open access” hospice is a newer type of hospice model that blends curative care and palliative care. This model allows individuals to access hospice services while continuing to receive certain types of medical treatments. Not all hospices currently offer the open access model.

HOUSING RESOURCES

The language of housing can often be confusing so here is a brief guide to some of the more important terminology.

- **Subsidized housing** - housing that is partially funded by the government for the purpose of providing affordable units to low-income families, disabled individuals, and the elderly. Renters are generally required to pay 30% of their monthly income towards the cost of rent and the government subsidy pays the remainder. Residents must provide proof of income and assets on an annual basis to determine their share of the rent.

- **Elderly/Disabled Housing** - buildings/complexes that are exclusively designated for seniors and disabled individuals. The rental subsidy in elderly/disabled housing is usually attached to the apartment itself therefore anyone who moves into that unit may be eligible for the subsidy. Elderly/disabled housing is often preferable because management and maintenance services are usually provided onsite and there is often a host of activities available to residents.

- **Section 8 Housing Choice Voucher Program** - individual applies through the local housing authority for a “portable” subsidy voucher. The rental subsidy is now attached to the individual and can be used by that individual for any market rate apartment in which the landlord agrees to accept the voucher.

For more information on local affordable housing, please contact:

**Independent Living**

- **BROOKLINE HOUSING AUTHORITY (BHA)** 617-277-2022
  90 Longwood Avenue, Brookline, MA 02446  www.brooklinehousing.org

- BHA operates several elderly and disabled housing sites in the Brookline area including:

- CCB owns and operates three properties in the Brookline area (100 Centre Street, 112 Centre Street and 1550 Beacon Street).
- CCB offers 2 bedroom, 1 bedroom and studio apartments. Two bedroom apartments generally have the longest waiting list and studios often have the shortest.
- Amenities offered to all residents include: activities, bus travel when organized trips are planned, a fitness room, a computer room, on-site social work and medical services. Meal plans (two meals a day) are also offered at 100 Centre Street in their community dining room.
- The apartments do not have emergency pull cords in the bathroom/bedroom. Residents are encouraged, but not required to enroll in a Lifeline program (personal emergency response system) as a home safety measure.
- Tours can be arranged to see the buildings.

100 Centre Street

- Market rate and subsidized housing. Apply through CCB’s main office.
- Two meals a day are built into the rental payment for market rate apartments and cannot be separated. Those in subsidized units are not required to participate in the meal plan.
- Younger, disabled residents live in the building in addition to elderly.

112 Centre Street

- Predominantly subsidized housing with some market rate family townhouses. Apply through CCB’s main office.
- There is a significant wait list for subsidized apartments at this site.
- Those in subsidized units are not required to participate in the meal plan.
- Younger, disabled residents live in the building in addition to elderly.

LEGAL RESOURCES

- Establishing a relationship with an attorney who specializes in Elder Law can be very valuable for seniors. Many of the legal issues that people face as they age often involve one’s lifetime income and assets. Protecting your income and assets is important and you will probably require the expertise of an attorney to help you sort through the complex laws and regulations as you plan for your future.
- Some of the areas in which an Elder Law attorney may be of assistance:
  - Estate planning
  - Long term care insurance
  - Long term care planning
  - Competency and Guardianship
  - Retirement planning
  - Social Security assistance
  - Medicaid assistance/Medicare assistance
  - Medical directives (health care proxy, living will)
- Many of the agencies listed here offer reduced cost or “pro bono” services for seniors.
- For other types of dispute resolution, such as landlord/tenant disputes or consumer complaints, mediation services can sometimes be an alternative to resolving these conflicts. There are many agencies with professionally trained staff who offer reduced cost or “pro bono” mediation services.

Agencies serving Brookline elders:

 Gesture Brookline Legal Assistance Bureau (BLAB) 617-730-2777
  - Volunteer local attorneys are available one morning a month (currently the first Wednesday) at the Brookline Senior Center to offer individuals expertise on matters of law as well as information and referral. There is no charge for this service and no appointment is necessary.
  - The Council on Aging also has a list of local attorneys who serve elderly clients. For information, please call 617-730-2777.

 Gesture MetroWest Legal Services 508-620-1830 or 800-696-1501

MEDICAL ESCORTS

- Medical escorts are volunteers or paid workers that accompany frail seniors to medical appointments when they are unable to travel independently and/or family members are unavailable to accompany.
- Escorts may be able to provide transportation so be sure to inquire.
- Escorts can assist seniors with checking in/checking out, scheduling any necessary follow up appointments and navigating the doctor's office/hospital system.
- Escorts can also simply provide supervision or companionship services to seniors to ensure that the process is a safe and comfortable one.
- When scheduling a medical escort, please be sure to give as much notice as possible (a minimum of 1-2 weeks). Remember that many escorts are volunteers and require time to plan their schedules.

If you have additional questions, please contact:

• A donation of $4.00 each way is requested and you are asked to pay for any tolls or parking fees.
• Contact program at least two weeks or more before the appointment to allow for scheduling.

PLEASE NOTE: Many private pay home care agencies offer medical escort services for a fee. Please see our listing of private pay home care agencies on page 103 for more information.
FREQUENTLY ASKED QUESTIONS

Q: When can I enroll in a Medicare prescription drug plan?
A: Medicare holds an open enrollment period annually.

Q: Do I have to wait until the open enrollment period?
A: Certain individuals may be eligible to enroll in or switch Medicare Part D plans outside of this annual enrollment period. You can enroll three months PRIOR TO or three months FOLLOWING your 65th birthday. Others exempt from waiting for the open enrollment period may include Masshealth enrollees, Prescription Advantage members, Medicare Advantage plan members, or those who have involuntarily lost “creditable” coverage through no fault of their own. “Creditable” coverage means that your current prescription drug coverage is as good as or better than a Medicare Part D prescription plan.

Q: What can I do now to get ready?
A: Be familiar with the details of the prescription drug coverage you have now and what it costs. Make a list of all prescription drugs you currently take and their cost to you. Also be sure to talk with your physician about generic substitution.

Q: Should I enroll in a plan even if I have drug coverage now?
A: If you are enrolled in a health plan whose drug coverage is considered “creditable”, you do not have to enroll in a Medicare D plan. If you are unsure contact your current health plan direct to inquire.

Q: How can I find out more?
A: Please review the list of resources provided on page 93-95.

A FEW THINGS TO CONSIDER...

- There are many Medicare prescription plans available, however not all plans will cover all medications. Plans change annually. Individuals will have to compare plans every year to obtain the plan with the best coverage and cost.
- Different plans may require you to pay monthly premiums, an annual deductible, varying co-payments, and gap coverage (the so-called “doughnut hole”) so be sure to inquire before enrolling in a plan.
**MEDICATION**

**MEDICARE PART D PRESCRIPTION PROGRAM**

- If you do not voluntarily enroll in Part D when you are first eligible, there will be a penalty in the form of an increased monthly premium when and if you do decide to enroll.
- If you currently have a comparable or better drug benefit through a retirement plan, you will not be penalized if your retirement plan changes and you need to join Part D at a later time.

**FINANCIAL ASSISTANCE FOR LOW INCOME INDIVIDUALS**

- **EXTRA HELP** (or the low-income subsidy) is the name of the Part D assistance program for individuals who meet certain income and asset guidelines.
- Individuals who qualify for “extra help” will have reduced premiums, deductibles, co-payments, and overall out of pocket expenses.
- You will need to show proof of income and assets when applying.
- You can obtain an extra help application by contacting Social Security at 1-800-772-1213.

- **PRESCRIPTION ADVANTAGE** is the state funded prescription assistance program for Massachusetts residents age 65 and older.
- Individuals who qualify for Prescription Advantage may receive assistance with gap coverage. You can apply for Prescription Advantage at any time of the year (see page 144-145).

MEDICATION

MCPHS (Mass College of Pharmacy) 866-633-1617
Pharmacy Outreach Program (Formerly MassMedline)

- This is a free, confidential information and referral service available to all Massachusetts residents who are seeking information regarding their medications.

- If possible have the following information ready when you call:
  ✓ Your social security number
  ✓ Your physician's name and telephone number
  ✓ A list of your prescription medications
  ✓ Your monthly income and health insurance information

- Trained case managers can assess which prescription assistance programs you are eligible for and assist you with completing the necessary applications over the telephone. The staff will also contact your physician's office for assistance with the application process and to discuss less expensive medication alternatives.

- Pharmacy Outreach Program staff members are also available to help you sort out whether or not the Medicare Part D prescription benefit is right for you.

- You may also contact the program's pharmacists if you have questions about a medication you are taking or if you are concerned about the interactions of any medications your physician has prescribed.

If you would like additional information, please contact MCPHS Pharmacy Outreach directly.

PATIENT ASSISTANCE PROGRAMS

- Patient Assistance/Indigent Med programs offer free or reduced costs medications to individuals directly from the manufacturer of that drug.

- Program applications always need to be signed by the prescribing doctor therefore you should speak with your doctor's office directly about his/her willingness to assist with the application process.

We do encourage your feedback (both positive and negative) so we can consistently provide updated information.
PATIENT ASSISTANCE PROGRAMS (cont.)

- Most programs have income guidelines that vary widely by manufacturer. Assets such as, bank accounts, stocks, and/or life insurance, are generally not counted.
- Most programs will not provide free or reduced cost medication if you have other prescription coverage (i.e., Medicare Part D plan, Prescription Advantage).
- WWW.NEEDYMEDS.ORG is a clearinghouse website that provides access to most patient assistance program applications. Individuals can assess eligibility based on stated criteria and print out application for completion as appropriate. Please note however that www.needymeds.org DOES NOT supply medications or financial assistance.
- MCPHS Pharmacy Outreach can also help to assess which programs you are eligible for and will contact your physician on your behalf to assist with the application process.
- If you are eligible, you will usually receive a 3-month supply of the manufacturer's medication once your application has been approved. Most companies deliver medications directly to the doctor's office for pick up however a few companies will now deliver the medication to your home.
- Most companies require that a new application be submitted by your doctor's office every 3 months and that is why it is important to have your doctor in agreement regarding ongoing participation.

If you would like additional information, contact your physician's office.

PRESCRIPTION ADVANTAGE PROGRAM

- Prescription Advantage is the state-funded prescription assistance program for Massachusetts residents age 65 and older. Prescription Advantage is also available to those under age 65 who are disabled.
- INDIVIDUALS CAN APPLY AT FOR PRESCRIPTION ADVANTAGE AT 800-243-4636

ANY TIME OF THE YEAR. PRESCRIPTION ADVANTAGE MEMBERS CAN CHANGE THEIR MEDICARE PART D PLAN ONCE PER YEAR IN ADDITION TO MEDICARE’S ANNUAL OPEN ENROLLMENT PERIOD.

• TO BE ELIGIBLE, all Medicare beneficiaries must enroll in a Medicare Part D plan or be enrolled in another “creditable” drug plan. Individuals must also meet certain income guidelines.

• Prescription Advantage acts as the SECONDARY prescription drug insurance coverage for all members who are Medicare beneficiaries. The member’s MEDICARE PART D prescription drug plan is the PRIMARY prescription drug insurance coverage.

• Coverage is also available for individuals who are not eligible for Medicare (i.e., those who have prescription coverage through an employer, etc.)

• Prescription Advantage members are divided into 6 levels (S0-S5) according to income. There is no cost for membership in Prescription Advantage, except for those in the S5 level; their premium is $200 ANNUALLY. Members in S0 and S1 are required to apply for “Extra Help” and “Extra Help” limits the charges for S0. S1 members receive “Partial Extra Help” and Prescription Advantage limits their out of pocket payments. S2-S4 members receive copayment assistance once they reach the “donut hole”. They also have annual out of pocket spending limits. Prescription Advantage limits the out of pocket spending for members in the S5 category.

If you would like additional information, please contact Prescription Advantage directly.

ELDER SUICIDE AND PREVENTION

Elder suicide is a subject that is not discussed enough and is often avoided by seniors and their families and friends. It is a real issue, though, that affects elders of any sex or socioeconomic background. The frustrations faced by many suicidal elderly can also affect their families and friends who sometimes do not know the right ways in which to help and can experience many immediate and long-term effects of anxiety, guilt, and traumatic grief. Elders who contemplate, attempt, and complete suicide face risk factors that can include loneliness, physical illness, stress, loss of relationships, disappointing experiences, and alcohol or other drug issues. These factors together with elders living longer and expecting the worst from aging increases the risk for suicide for this population.

Improving our ability to recognize and respond to crisis can save many lives.

Be aware of the following characteristics of possible suicide risk:

1. Sad, dejected, or emotionally flat mood
2. Stooped, withdrawn, fatigued, lack of eye contact
3. Careless in grooming and dress
4. Restlessness, hand wringing, constant motor activity
5. Inattention, lack of concentration, losing the thread of the conversation
6. Loss of appetite/weight
7. Sleep disturbance (insomnia or oversleeping)
8. Loss of interest in activities that previously were pleasurable
9. Loss of interest in other people
10. Preoccupied with vague and shifting physical complaints

Disclaimer: Inclusion in this guide does not represent a recommendation from the Brookline Council on Aging or the Brookline Senior Center, but is for your assistance in obtaining information and services. We do encourage your feedback (both positive and negative) so we can consistently provide updated information.
MENTAL HEALTH

The following guidelines are offered for assistance with suicide prevention:

1) Take a suicidal concern seriously by giving the person your time and attention.
2) Do not react in a way that will intensify a suicide attempt by belittling, daring, or suggesting that the person won’t do so.
3) Do not inject value judgments when a person is confiding suicidal thoughts.
4) Do not let a person’s “good reasons” for suicide get in the way of prevention.
5) Take an active listening role to show the person that you are there for them.
6) Have the suicidal person take a short reprieve from a stressful situation, along with offering them counseling, both of which can be conducive to their recovery.

We can do much to identify high suicide risk and to help provide alternatives. This will help in elders understanding that suicide is not the solution. After all, people do not reach older adulthood unless they have resilience.

It is also good to be aware of the resources in the community, such as 24/7 crisis hotlines, suicide prevention centers, mental health specialists, and educational programs. Please contact the following community resources for assistance:

Call 911 if you feel the risk of suicide is imminent.

MOVING RESOURCES

- Most moving companies charge an hourly rate for local moves within Massachusetts. Rates for long distance moves (out of state) are often calculated based on the weight of items being transported.
- Hourly rates vary by company and may be based on the number of movers and trucks required OR the time of year, time of month and day of the week for which the move is scheduled.
- Rates are generally higher during the summer months and on weekends at the beginning and end of each month due to the high demand.
- Moving companies may require a minimum number of hours when contracting for moving services so be sure to inquire.
- Most companies will also charge their hourly rate for travel time to and from a job.
- Moving companies generally offer packing services, however they use their own packing supplies and you are required to pay the cost of any supplies used. Hourly rates may be different for packing services so be sure to inquire in advance.
- Be sure that your moving company is both licensed and insured.
- Most companies will provide references upon request. Be sure to check at least two references for each company being considered before making your final decision. And check with relatives and friends who have moved recently.

PARTNERS IN CARE
Retirement Engagement Alternatives Program (REAP)

The Brookline Council on Aging recognizes the efforts of all our program collaborators and we are grateful for their support. This year we are highlighting one of our own Council on Aging programs, REAP, which partners with several other local organizations.

Retirement Engagement Alternatives Program (REAP) 617-730-2767 Contact: Deidre Waxman

The REAP program for Brookline seniors is designed for people who wish to remain active and engaged in the community while in retirement or partial retirement. The goal of the program is to enhance the retirement experience by linking participants with either part-time paid or volunteer work in the community or at the Brookline Senior Center.

Partnership
The Brookline Council on Aging partners with several other local organizations to offer fulfilling and interesting part-time paid or volunteer work. These partners include:

- BrooklineCAN
- Senior Community Service Employment Programs (SCSEP)
- Brookline Adult and Community Education
- RSVP of Norfolk County
- Various Brookline Town Departments
- Brookline Chamber of Commerce

In addition, opportunities exist for Senior Tax Work-Off abatements and limited grant funded employment at the Brookline Senior Center for qualified Brookline residents.

REAP provides:

- Individual, confidential and free consultation around skills and interests
- On-going skills based workshops and training for employment seekers
- Employer-employee matching service
PARTNERS IN CARE
Retirement Engagement Alternatives Program (REAP)

- Consultation and matching for participants seeking meaningful volunteer opportunities
- On-going opportunities to network and explore options for self-fulfillment in retirement

On-going Workshops and Trainings:
- Wisdom Works job and volunteer search training seminars
- Networking Support Groups
- Resume writing workshops
- LinkedIn workshop training
- Individual job search skills sessions
- Online job search assistance

If you would like more information about any of the workshops or programs or to speak to someone about your individual concerns, call Deidre Waxman at 617-730-2767.
PERSONAL EMERGENCY RESPONSE SYSTEMS

- If you are experiencing an immediate emergency **DIAL 911**.
- There are many emergency and safety systems that can be of assistance to seniors that include programs available to Norfolk County residents such as daily telephone reassurance program (Are You Okay); a listing of emergency medical information for the front of your refrigerator through the Brookline COA (File Of Life); and a program from the Brookline Police Department and the Brookline COA (HomeSafe) that offers a tracking device that a person at risk of wandering can wear that will enable the police to locate them should they get lost;
- Personal Emergency Response Systems (PERS) are safety devices used in the event that you become ill or have an accident in your home and you are unable to reach the telephone to call for help.
- The PERS consists of a speaker (about the size of an answering machine) that is connected to your telephone and a small button device that can be worn as a pendant or as a bracelet.
- If you are in need of assistance, you simply push the button on the pendant/bracelet and the PERS representative responds to your request over the speaker.
- If you need help, they will contact an ambulance for you. You will also be asked in advance to provide them with an emergency contact to call on your behalf. If you are unable to respond verbally to the PERS representative, an ambulance will automatically be sent out to assist you.
- If you accidentally push the button, just let the representative know and they will cancel your call.
- Some PERS have more advanced features such as medication reminders or daily check-in telephone calls. Other systems utilize motion sensors and will alert emergency personnel if there does not appear to be “normal” activity throughout the individual’s home. Some have GPS and can be used outside the home. Inquire directly regarding additional cost for such features.
- Many PERS providers accept Medicaid (Masshealth) to cover the monthly

PERSONAL EMERGENCY RESPONSE SYSTEMS

service costs and occasionally local Aging Services Access Point agencies (i.e., Springwell, Boston Senior Home Care) can provide service free of charge to clients. If you do not qualify for either of these options, you must private pay for your PERS.

Prospective purchasers should check current installation costs, monthly rates, and any maintenance, replacement, or other charges that may apply. There may be discounts for Council on Aging or other referrals. Some services may require contracts for various periods of time.

PET CARE

Pet care services are an essential tool for seniors to be able to take care of their pets. There are many local services that cater to the needs of dogs, cats, and other animals, including dog walkers, pet sitters, pet boarders, pet trainers, and groomers. Make sure your pets are in good hands, especially when you’re away from home.

Veterinarians are not listed, but if you’re looking for a cheaper alternative, please try the Merwin Memorial Free Clinic for Animals, Inc. at 617-782-5420. They offer a free exam and office visit at their Allston location, so you only pay for medicines and vaccines.

PODIATRY SERVICES

Routine foot care such as nail and callous trimming often becomes increasingly difficult as people age and the services of a podiatrist may become necessary. With few exceptions, Medicare does not cover the cost of routine foot care. Generally speaking, only podiatry services for diabetic individuals are covered due to the associated health risks. Please be sure to check with your podiatrist to see whether or not your care is eligible for coverage under your Medicare benefit.

If you would like additional information, please contact:

Applications for real estate tax exemptions are available from the Town of Brookline Assessors Office (Town Hall, Room 215) or via the Town’s website (www.brooklinema.gov/assessors).

As a courtesy, the Assessor’s Office mails applications to residents who have received an exemption in previous years.

Those applications are mailed out in summer; however it is the taxpayer’s responsibility to submit an application in a timely manner.

The following is a summary of available real estate tax exemptions and the tax deferral option, under Chapter 59, Section 5, of the Massachusetts General Laws. For more detailed information, please call the Assessor’s Office at 617-730-2060.

Sections I-IV below are offered by the Town of Brookline. Section V is a Commonwealth of MA Department of Revenue program.

This tax relief refers to the reduction in taxes that occurs when the taxes are computed on the assessed value of the owner’s residence less the “Residential Exemption”, rather than on the full assessed value of the property.

**Section 5C: Residential Exemption**

- A taxpayer must **own and occupy** the property as their primary residence as of the prior January 1st.
- Tax paid must be at least 10% of gross tax bill amount.
- Residential exemption applies also to condominiums and multifamily homes.
- You can take the residential exemption plus NO MORE THAN ONE of the other exemptions itemized in Section II. Please note **Tax Deferral**
- **FY2015 = $191,357 in assessed value or $2,043.69 in taxes** is NOT considered an exemption.

A home-owner who qualifies for one of the following would receive a specific rebate amount ranging from $175 to $1000¹, depending on the exemption. A tax payer may qualify for and receive only one statutory exemption outlined in this Section. However, if you qualify for either Clause 17D or Clause 41C, you may also receive 20% off your water/sewer bill.

Clause 17D: Surviving spouse, minors, or persons 70 years of age or older
✓ Own and occupy property for 5 years.
✓ Eligible seniors must be 70 years old as of July 1st for the current fiscal year.
✓ Surviving spouses and surviving minors are eligible.
✓ There are estate limits (value of assets as of July 1st) to qualify. For example, in Fiscal Year 2015, a taxpayer’s whole estate cannot exceed $54,836 excluding their domicile.
✓ There is no annual income limitation.

Clause 22 and 22A-E: Disabled Veteran
✓ Must have VA certificate and be at least 10% disabled.
✓ Must have been a Massachusetts resident prior to military service or for 5 years prior to filing.
✓ Must own and occupy property as of July 1st for the current fiscal year.

Clause 37A: Legally Blind
✓ Taxpayer must own and occupy the property and be LEGALLY blind.

Clause 41C: Senior Persons and Surviving Spouses
✓ Taxpayer must own and occupy the property as of July 1st for the current fiscal year, have lived in Massachusetts continuously for 10 years AND occupied the residence for 5 years.
✓ Eligible seniors must be 65 years old as of July 1st for the current fiscal year.
✓ There are both income limits and whole estate limits to qualify.

Tax Deferral is not an exemption. The full taxes owed must eventually be paid.

Clause 41A: Tax Deferral
✓ Taxpayer must own and occupy the property and be 65 years old.
✓ Must have owned the property for 5 years and resided in Massachusetts for 10 years.

You may also call the Department of Revenue at 617-887-6367 or toll-free 1-800-392-6089 for information.

This program is independent of the Town of Brookline exemptions, and may be taken in addition to those if eligible.

✓ Eligible seniors must own or rent a residential property in MA as a primary residence, and must be 65 years old or older by the end of the tax year
✓ There are income limits for single/head of household/joint filers. For example in 2014 the limits were $56,000/$70,000/$84,000¹. You must file a return with Schedule CB to claim a refund even if you do not owe taxes.
✓ The credit or subsidy is a dollar for dollar match, up to a specified maximum amount (for example, in tax year 2014, the maximum credit was $1050¹)
  o for the amount paid by owners over 10% of income for property taxes + water/sewer,
  o for the amount paid by renters if 25% of the annual rent exceeds 10% of their annual income

You are NOT eligible if you:
- receive federal or state rent subsidy directly; or live in a property-tax exempt facility
- are married but do not file jointly for this credit
- are a dependent of another tax filer
- own property which is assessed at a specified value, for example $691,000¹ or more on January 1, 2014

¹ These figures are adjusted annually.

RESPITE SERVICES

- Respite care provides temporary “relief” assistance to the caregivers of seniors with chronic illnesses. Respite services allow caregivers an opportunity to run errands, go shopping, or in some cases, take a much needed vacation.
- Respite care may include meal preparation, assistance with personal care, housekeeping, recreational programming, and a supervised environment.
- Respite services can be provided at home or at an outside facility such as an assisted living, adult day care program or nursing home.
- The length of a respite care stay in an outside facility can vary from one week to one month. Adult day health or in-home respite services may be available on an ongoing basis for one or more days each week.
- Costs vary and can range from $190-$450 per day or more for nursing home or in-home respite care, and from $77-$90 per day for adult day health programs.

If you would like more information, please contact:

☞ H.E.L.P. Program (Home and Escort Linkage Program) 617-730-2752

SKILLED NURSING FACILITIES/
NURSING HOMES

- Skilled nursing facilities (SNF), more commonly referred to as nursing homes, typically provide care for those individuals who are unable to live alone in their own home even with the support of community services.
- The types of services generally provided by a SNF are 24-hour nursing care, rehabilitative care and custodial care. Rehabilitative care includes the services of physical, occupational, and speech therapists. Custodial care involves assistance with daily living tasks such as feeding, bathing, dressing, and toileting.
- Medicare does not cover the cost of long term or permanent placement in a skilled nursing facility, however Medicare will often cover short-term rehabilitation stays in a SNF following a hospitalization.
- Masshealth/Medicaid will usually cover the cost of long term care in a SNF, however individuals must be medically screened in advance of admission to assure that the level of care required is appropriate.

When choosing a SNF, be sure to schedule tours with two or three different facilities to compare the general environment of each. Also be sure to utilize the available resources from government and private organizations that screen and rate nursing homes. More specific listings of such agencies are at the end of this section. SOCIAL SECURITY

- You must have paid into the Social Security system through previous or current employment to be eligible for disability or retirement benefits.
- Benefit eligibility is based on number of years/quarters worked. Monthly benefit amount is based on earnings history. The higher your lifetime earnings, the higher the benefit.
- Social Security is an entitlement program. Eligibility is not based on one’s current income or assets.
- Individuals receive a small cost of living adjustment annually in January.

SUPPLEMENTAL SECURITY INCOME (SSI)

- SSI usually supplements Social Security
- You may be eligible for SSI even if you never worked or paid into the Social Security system.
- Guarantees a minimum monthly income for people who are age 65 or older, disabled or blind, with limited income and assets
- Eligibility is based on gross monthly income and assets
- Income/asset guidelines as of March 2014:
  
  Individual
  Income: $ 882/month or less  Asset: $2000 or less
  
  Couple
  Income: $ 1322/month or less  Asset: $3000 or less

- Guidelines vary from state to state.

If you have additional questions, contact Social Security at:

Social Security Administration  (800)-772-1213
10 Causeway Street, Room 148, First Floor  www.ssa.gov
Boston, MA 02222

- Official government website allows individuals to check eligibility for benefits, apply for benefits, request proof of income, request duplicate Medicare card, and update address and telephone contact information.
• Springwell is a private, nonprofit agency designated by the Massachusetts Executive Office of Elder Affairs as an Aging Services Access Point (ASAP).

• In this capacity, Springwell serves as a single point of entry for state and federally subsidized elder services in the communities of Belmont, Brookline, Needham, Newton, Waltham, Watertown, Wellesley, and Weston.

• In addition, Springwell is an Area Agency on Aging, a designation enabling them to provide home-delivered meals in some communities and to contract with local agencies to provide such services as transportation, legal advice, advocacy, and caregiver support. Springwell also acts as a protective services agency, investigating and resolving reports of elder abuse, neglect, or financial exploitation.

• Springwell services include:
  ➢ Information and referral
  ➢ Medical Escort
  ➢ Money Management
  ➢ Personal Emergency Response Systems (i.e., Lifeline)
  ➢ Meals on Wheels
  ➢ Personal Care (i.e., assistance with dressing/bathing)
  ➢ Homemaking
  ➢ Grocery Shopping and Laundry Services
  ➢ Elder Protective Services

• Cost of state-subsidized services is generally based on an individual’s monthly household income.

Please contact Springwell directly for more information or to make a referral for services.
SUPPORT GROUPS

- A support group generally consists of a group of individuals who share similar concerns coming together to discuss their thoughts, feelings, and experiences.
- Support groups address a wide variety of issues including, but certainly not limited to, aging, bereavement, coping with a major illness, depression, low vision, relationships, spirituality, and substance abuse.
- Organizations linked to a specific illness often sponsor support groups for individuals afflicted by that condition as well as for their caregivers.
- Support groups may be ongoing or time limited (i.e., 6 sessions, 12 weeks, etc.). Some groups allow new members to join at any time and others restrict their membership once the group has begun.
- The group leader may either be a trained professional or a layperson with some personal experience related to the topic of interest.
- Support groups are often free, however if there is a charge associated inquire as to whether your health insurance will cover it.
- Nursing homes, assisted living facilities, and hospitals also often have support groups.

Please note that all of the following organizations offer a variety of support groups. If you would like additional information, please contact:

TELEMARKETING/JUNK MAIL
REMOVAL INFORMATION

TELEMARKETING

☞ NATIONAL “DO NOT CALL” REGISTRY  888-382-1222
www.donotcall.gov

- Individuals can register personal home or cell phone numbers via telephone or online with the national do not call registry.
- Telemarketing companies have up to 31 days following your registration to remove your telephone number from their call lists.
- While registering will significantly cut down on the amount of unsolicited calls you receive, not all telemarketing companies are required to remove your telephone number from their lists. Companies with which you have had a business relationship in the past, political campaigns, charities and surveyors are still allowed to contact you.
- If you move and you are assigned a new telephone number or you change your telephone number, you must register the new number.
- Telemarketing companies in violation of the Do Not Call Registry regulations will be fined. If you would like to file a complaint, contact the registry with the name and telephone number of the company you believe to be in violation.

☞ MASSACHUSETTS “DO NOT CALL” REGISTRY  866-231-2255
www.madonotcall.govconnect.com

Guidelines are generally the same as with the national do not call registry
- It is recommended that you register your phone number(s) with the state program as well because it is unclear as to whether or not the national registry applies to the more local/state telemarketing companies.
JUNK MAIL

MAIL PREFERENCE SERVICE

THE DIRECT MARKETING ASSOCIATION

- Individuals can register by mail or online to have your address added to the DMA “do not mail” registry.
- Registration by mail is $1 payable by money order or check. You must print out the registration form from the website and mail it along with the $1 to the address included on the form.
- There is no fee to register online however you must provide your credit card information at the time of registration for identity verification purposes.
- While registering will significantly cut down on the amount of unsolicited mailings you receive, not all companies are required to remove your address from their lists. You will still receive mailings from non-Direct Marketing Association members.
- You will notice a significant reduction in advertising mail from NATIONAL marketers such as sweepstakes, magazine subscription offers, and catalogs.
- Local business organizations generally do NOT use this program.
- Your registration will expire after three years therefore you will need to register again at that time.
- If you continue to receive unsolicited mail from a particular company, contact them directly and asked to be placed on their “do not mail” list.

OPT-OUT PRESCREEN

CREDIT CARD OR INSURANCE OFFERS

- Opting-Out refers to the process for removing your name from lists supplied by the Consumer Credit Reporting Companies: Equifax, Experian, Innovis and TransUnion, to be used for firm offers of credit or insurance.
- Your rights as a consumer under the Fair Credit Reporting Act (FCRA) include the right to "Opt-Out" for 5 years OR permanently.
- There is no fee for this service and individuals can register via telephone or online.

participate in a Senior Charlie Card event. You will get your picture taken and get your Senior Charlie Card mailed to your home by the MBTA in 6-8 weeks. For more information call: 617-730-2777.

- Senior CharlieCards/TAP ID CARDS HAVE AN EXPIRATION DATE. You may go to the Downtown Crossing Charlie Card Store to replace your expired Senior Charlie Card for a new one. You may also replace an expired Senior Charlie Card by calling 617-222-5976. The MBTA will need to reuse your old Charlie Card photo. The Charlie Card will then be mailed to your home address in 6-8 weeks.

Using you Senior Charlie Card:

- MBTA staff should be available to help you with the new equipment until you become comfortable. You will have to “tap” your new Senior Charlie Card/TAP ID against the new electronic fare machines in the MBTA stations, subways, and buses. The fare machines will then automatically deduct the correct amount of money from your card.

- BE SURE TO ALERT THE DRIVER IN ADVANCE OF TAPPING YOUR CARD THAT YOU ARE USING A SENIOR CHARLIE CARD/TAP ID SO THE FARE BOX DEDUCTS THE CORRECT REDUCED FARE (AND NOT THE FULL ADULT FARE).

Age-related vision loss can be one of the most frightening and debilitating conditions amongst seniors. While there may be many causes for an individual's vision loss, the three most common age-related conditions are macular degeneration, cataracts and glaucoma.

**Macular degeneration** is caused by the deterioration of the central portion of the retina. As a result, individuals with macular degeneration often describe their field of vision as if there were a "big, black spot" right in the middle. Individuals can often not see the faces of those to whom they are directly speaking, but their peripheral vision usually remains intact. Unfortunately there is no cure for macular degeneration at this time however there may be treatments alternatives available to slow the progression of the disease.

A **Cataract** is a clouding of a lens in your eye that impedes light from passing through to the retina. As a result, individuals with cataracts often describe their field of vision as cloudy or as if they were "looking through a piece of gauze". Cataract surgery to replace the clouded lens is an effective treatment option and can generally be performed on an outpatient basis.

**Glaucoma** is a build-up of pressure in the eye that results in damage to the optic nerve. As a result, individuals with advanced glaucoma may lose their peripheral vision and feel as if they are looking through a pinhole. There is no cure for glaucoma at this time however there may be treatment alternatives available to slow the progression of the disease.

**Nutrition Eyed for Blindness Prevention**

By Elizabeth Johnson, PhD

Jean Mayer USDA Human Nutrition Research Center at Tufts University

By the age of 65, one person in three has some form of vision reducing eye disease. Cataract and age-related macular degeneration (AMD) are the major causes of visual impairment and blindness in the aging US population. Certain food choices may help to prevent these diseases.

Cataracts and AMD share some common risk factors such as sunlight exposure, excessive alcohol consumption, and smoking. Of particular interest is the possibility that nutrition might reduce the incidence or slow the progression of these diseases. Two components of the diet that may be important in the prevention of cataracts and AMD are lutein and zeaxanthin.
Nutrition (cont.)

Lutein and zeaxanthin are plant pigments found in foods such as spinach and kale. Other good sources include egg yolks, peas, broccoli, collard greens, Swiss chard, and Brussel sprouts. Lutein and zeaxanthin are the only plant pigments that are detected in the eye. They are thought to act like sunglasses that protect the lens and retina against potentially damaging sunlight. They may also act as antioxidants that prevent free radicals from damaging eye tissue. Therefore a diet rich in fruits and vegetables, especially leafy greens, may be more important than ever when it comes to eye health.

For more information on any of these eye diseases, please contact your eye care provider. If you would like additional resource information, please contact:

WEB SITES

The internet is a wonderful resource for accessing general information about caring for yourself or someone else. There are websites dedicated to almost every illness or health condition imaginable. There are also government sponsored websites that provide quality assurance information on hospitals, assisted living facilities, and nursing homes.

All you have to do is select a search engine such as www.google.com and type in a few key words (i.e., estate planning, Massachusetts) for a list of relevant websites. You can also try simply typing your question into a search engine to get more specific information.

As with any information, you must consider the source and use your best judgment. When considering medical information, always be sure to check with your own medical providers.
