

# Protect yourself, your family, and your community from COVID-19.

Get vaccinated and stay up to date.

The best protection against COVID-19 is staying up to date on COVID-19 vaccines. That means being fully vaccinated and getting a booster. Fully vaccinated people are much less likely to get sick or spread the virus that causes COVID-19, especially if they have their booster shot.

Take a test.

Testing for COVID-19 is widely available, including at-home rapid tests. Get tested if you have symptoms. Learn more at [mass.gov/GetTested](https://mass.gov/GetTested)

Get treatment.

If you test positive, talk to your doctor right away about treatment options that are available for people who have mild to moderate symptoms.

Stay home when you are sick.

Staying home helps prevent the spread of illness.

Mask up if you need to.

Enable MassNotify on your Smartphone.

MassNotify is an anonymous tool that works to alert users who may have been exposed to COVID-19.

Wash your hands.

Wash your hands often with soap and warm water. Or use hand sanitizer with at least 60% alcohol.
