

Dear Advisory Committee,

Thank you for care, time and attention to WA-30. We are very appreciative that you are reviewing this Article again as it does affect two very important issues for Brookline Village, Senior Affordable Housing and parking for merchants. Through many lengthy discussions over the past several weeks it has been recognized that both are equally important for the community to continue to grow and thrive. Through many thoughtful conversations it has also become clear that there is a way to make both happen.

1. Build Senior Affordable Housing in Brookline village that has walkability to many goods and services provided by local merchants
2. Secure and identify 37 parking spaces for the merchants.

The petitioners have proposed a version of WA-30 voted by the Select Board that does just that and we ask that you vote yes on the SB's version of WA-30 and advise TM members to vote yes on the SB's version of WA-30.

Thank you for your consideration,

Susan Healy
