

Maintenance Executive Overview Briefing

BROOKLINE PUBLIC BUILDINGS

2023-10

Categories

What will these Key Performance Indicators (KPIs) allow me to do?

maintenance

Increase maintenance staff efficiency and overall productivity, streamline workflows, improve customer engagement and satisfaction, capture and show productivity gains, and track overall health of your maintenance program

preventive

Determine success of your preventive maintenance program, transition to being more proactive, reduce backlogged work, increase life expectancy of equipment, and decrease catastrophic failures

Time Frame

Key Performance Indicators (KPIs): Past 12 Months

Trends: Past 3 Years, plus current year

Total Number of Work Orders

of WOs

15,390

Total Corrective Maintenance (CM)

4,407

Total Planned Maintenance (PM)

10,983

This reflects how many repairs and jobs were captured in the 12 month rolling window. (includes all statuses)

WOs Per Enrollment Per Year

Enroll	# WOs	Your Value	Peer Category	# of Clients	Low 20%	Median	Top 20%
6627	15102	2.28	Public K-12	2,297	0.26	0.49	0.87

This metric is an indicator of how much work is being captured and also serves as a measurement of software utilization. Far below average can indicate you are not capturing all work being performed. Far above the average may be a sign of trying to capture too much at the risk of becoming inefficient. This metric is important because the more work is captured, cases can be stronger for justifying resources. (rolling 12 Months, ignores rejected work)

WOs Per 1,000 SQFT

SQFT	# WOs	Your Value	Peer Category	# of Clients	Low 20%	Median	Top 20%
927,994	15,102	16.27	Public K-12	2,297	1.59	3.27	6.71

Total count of work orders for a 12 month rolling window (*this month – last 12 months, ignores rejected work*) divided by the total sum of square footage and then multiplied by 1,000.

Total # of WOs by Month/Year

Trend: Past 3 Years, plus current date: based on Created Date

Total # of WOs by Year

Trend: Past 3 Years, plus current date: based on Created Date

% CM WOs Completed in a Week by Year

Trend: Past 3 Years, plus current date: based on Completion Date

% CM WOs Completed in a Week by Year

Trend: Past 3 Years, plus current date: based on Completion Date

% of WOs from Request Portal

Trend: Past 3 Years, plus current date: based on Created Date

Average Count of Work Orders Per Employee Per Year

This metric gives you a direct comparison of your staff's productivity compared to peer institutions. Employees are users who have been assigned more than 30 work orders, but less than 2,000 in a rolling 12 month window.

Avg WOs Per Technician by Year

Trend: Past 3 Years, plus current date: based on Created Date

Total Number of PM Work Orders Generated over past 12 Months

PM WOs

10,983

Rolling 12 Months, includes all statuses

PM WOs Per Enrollment

Enroll	# Comp PM WOs	Your Value	Peer Category	# of Clients	Low 20%	Median	Top 20%
6627	5428	0.82	Public K-12	1,875	0.03	0.10	0.31

This metric is used along with the PM/WO ratio to gauge the strength of your PM program. Implementing a strong PM program typically has an ROI within 1-2 years by reducing system failures and emergencies, extending equipment life and decreasing energy consumption. Increasing PM work can also help make workers' schedules more predictable as organizations performing more PM work see reductions in reactive work over time. (Rolling 12 Months, ignores rejected work)

PM WOs Per 1,000 SQFT

# Comp PM WOs	SQFT	Your Value	Peer Category	# of Clients	Low 20%	Median	Top 20%
5,428	927,994	5.85	Public K-12	1,875	0.11	0.55	1.91

Total count of PM work orders for a 12 month rolling window (*this month – last 12 months, ignores rejected work*) divided by the total sum of square footage and then multiplied by 1,000.

Ratio of PM Work Orders to Work Orders

# CM WOs Comp	# PM WOs Comp	Your Value	Peer Category	# of Clients	Low 20%	Median	Top 20%
4,065	5,428	57%	Public K-12	1,875	5%	17%	46%

This metric lets you evaluate how successful your institution has been at transitioning from a reactive to a proactive mindset and indicates how much of your M&O resources are dedicated to PM vs Reactive work. As more time is invested into PMs, you should see a decrease in reactive work, an increase in cycle times and an improved learning environment. (Rolling 12 Months)

Ratio of PM to CM by Month

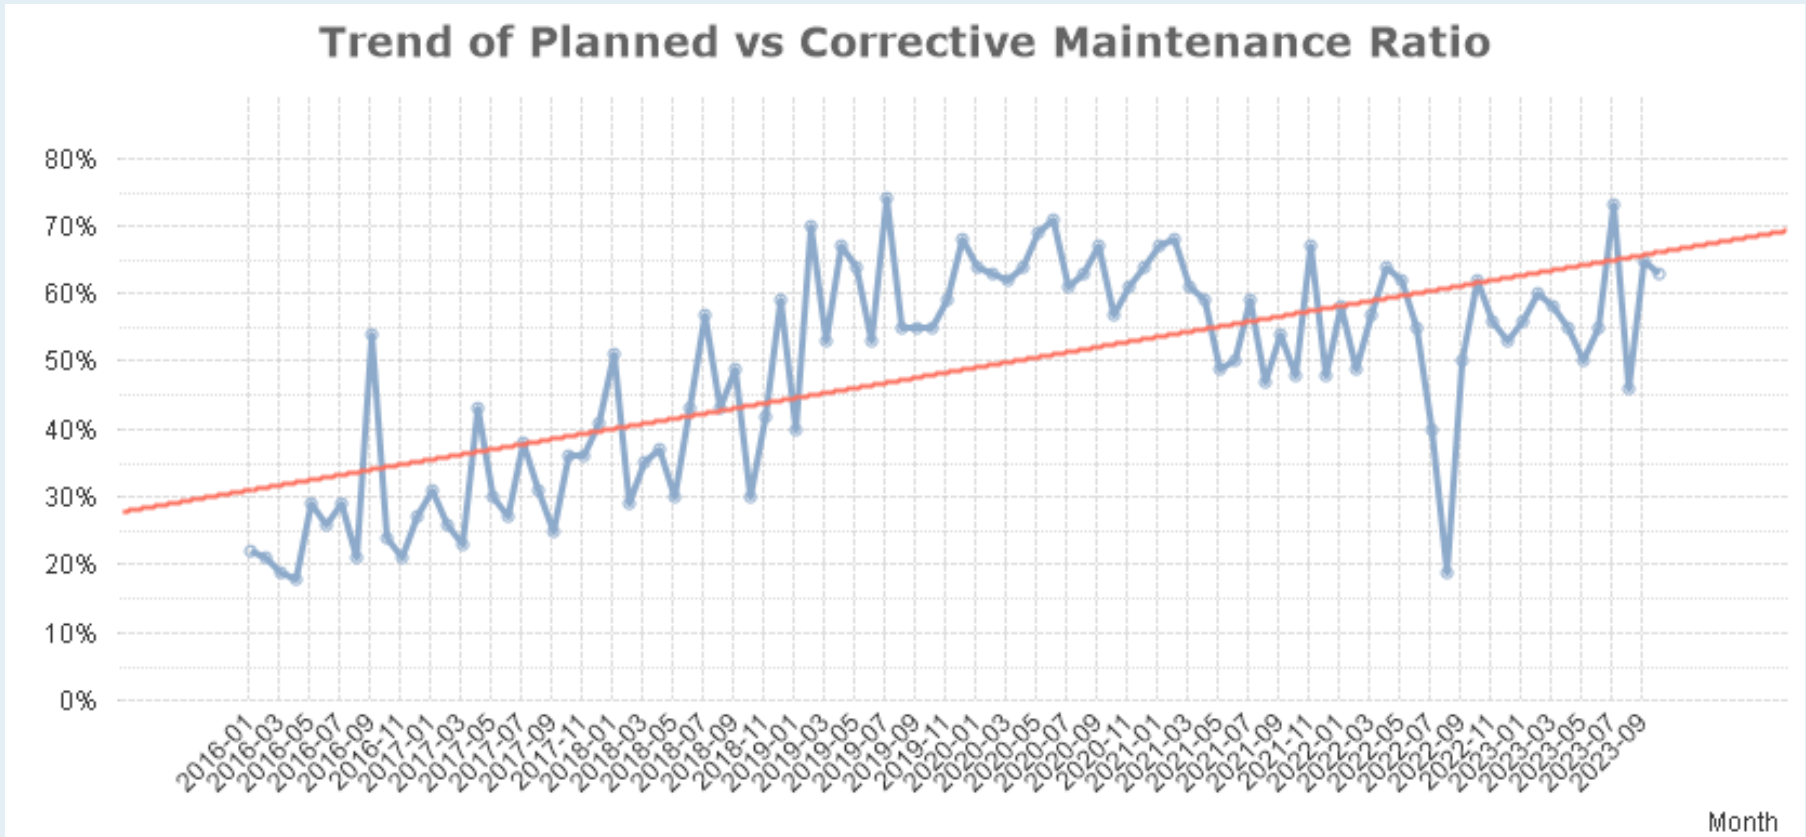

Trend: Past 3 Years, plus current date: based on Created Date

Ratio of PM to CM by Year

Trend: Past 3 Years, plus current date: based on Created Date

Ratio of PM to CM by Year

Trend: Past 3 Years, plus current date: based on Created Date

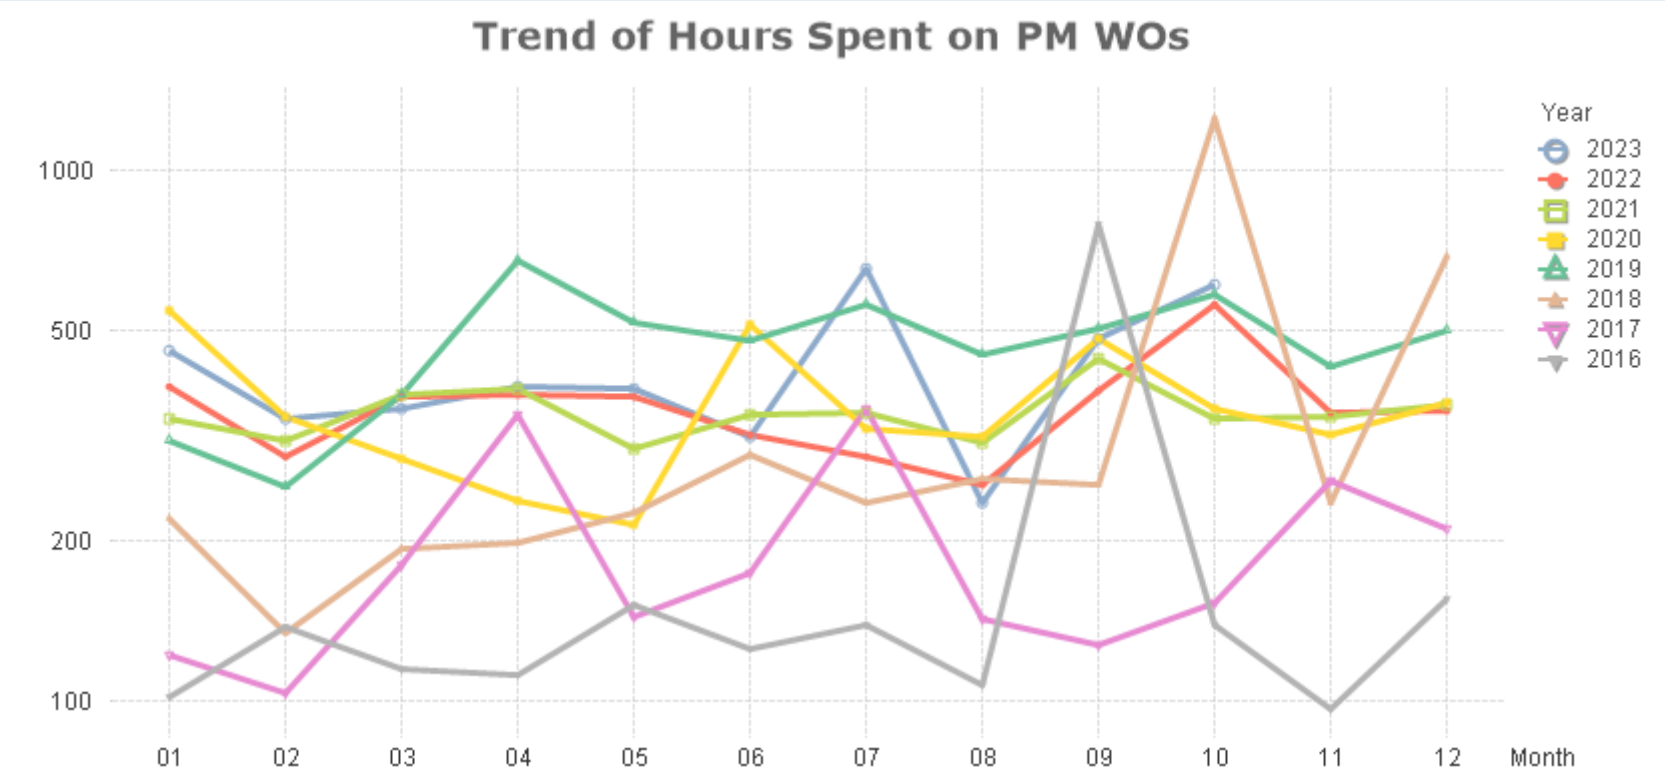

Labor Hours Spent on PM Schedules for Last Year

Hours

4,781

Total preventive maintenance hours spent on PM work orders over the past 12 months

Hours Spent on PM by Month

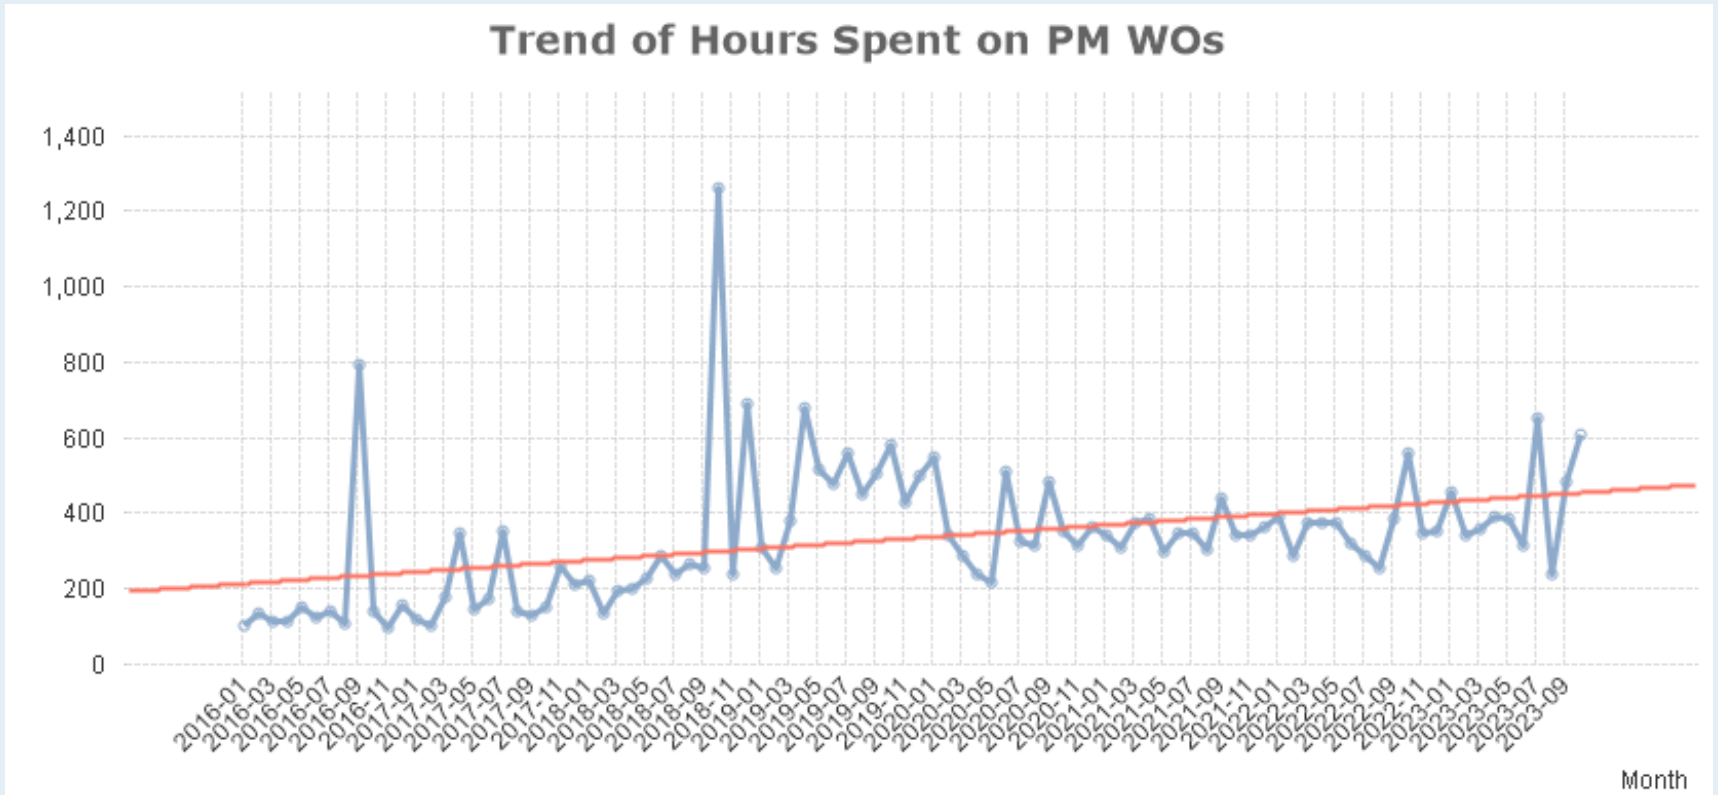

Trend: Past 3 Years, plus current date: based on Created Date

Hours Spent on PM by Year
