

TOWN OF BROOKLINE

CAPITAL IMPROVEMENT PROGRAM (CIP) POLICIES

Planning, budgeting and financing for the replacement, repair and acquisition of capital assets is a critical component of the Town of Brookline's financial system. Prudent planning and funding of its capital infrastructure ensures that the Town can continue to provide quality public services in a financially sound manner. The development of a Capital Improvement Program (CIP) is the mechanism that the Town uses to identify projects, prioritize funding and create a long-term financial plan that can be achieved within the limitations of the Town's budget.

Definition of a CIP Project

A capital improvement project is any project that improves or adds to the Town's infrastructure, has a substantial useful life, and costs \$25,000 or more, regardless of funding source. Examples of capital projects include the following:

- . Construction of new buildings
- . Major renovation of or additions to existing buildings
- . Land acquisition or major land improvements
- . Street reconstruction and resurfacing
- . Sanitary sewer and storm drain construction and rehabilitation
- . Water system construction and rehabilitation
- . Major equipment acquisition and refurbishment
- . Planning, feasibility studies, and design for potential capital projects

Evaluation of CIP Projects

The capital improvement program shall include those projects that will preserve and provide, in the most efficient manner, the infrastructure necessary to achieve the highest level of public services and quality of life possible within the available financial resources.

Only those projects that have gone through the CIP review process shall be included in the CIP. The CIP shall be developed in concert with the operating budget and shall be in conformance with the Board's CIP financing policy. No project, regardless of the funding source, shall be included in the CIP unless it meets an identified capital need of the Town and is in conformance with this policy.

Capital improvement projects shall be thoroughly evaluated and prioritized using the criteria set forth below. Priority will be given to projects that preserve essential infrastructure. Expansion of the capital plan (buildings, facilities, and equipment) must be necessary to meet a critical service. Consideration shall be given to the distributional effects of a project and the qualitative impact on services, as well as the level of disruption and inconvenience.

The evaluation criteria shall include the following:

- Eliminates a proven or obvious hazard to public health and safety
- Required by legislation or action of other governmental jurisdictions
- Supports adopted plans, goals, objectives, and policies
- Reduces or stabilizes operating costs
- Prolongs the functional life of a capital asset of the Town by five years or more
- Replaces a clearly obsolete facility or maintains and makes better use of an existing facility
- Prevents a substantial reduction in an existing standard of service
- Directly benefits the Town's economic base by increasing property values
- Provides new programs having social, cultural, historic, environmental, economic, or aesthetic value
- Utilizes outside financing sources such as grants

CIP Financing Policies

An important commitment is to providing the funds necessary to fully address the Town's capital improvement needs in a fiscally prudent manner. It is recognized that a balance must be maintained between operating and capital budgets so as to meet the needs of both to the maximum extent possible.

For the purposes of these policies, the following definitions apply:

- Net Operating Revenue - Gross revenues, less net debt exclusion funds, enterprise (self-supporting) operations funds, free cash, grants, transfers from other non-recurring non-general funds, and non-appropriated costs.
- Net Direct Debt (and Debt Service) - Gross costs from local debt, less Prop 2 1/2 debt exclusion amounts and amounts from enterprise operations.
- Net Tax-Financed CIP - Gross amount of appropriations for capital improvements from current revenues, less amounts for enterprise operations, grants, free cash, transfers, and non-recurring special revenue funds.

The capital improvements program shall be prepared and financed in accordance with the following policies:

OUTSIDE FUNDING

State and/or federal grant funding shall be pursued and used to finance the capital budget wherever possible.

ENTERPRISE OPERATIONS - SELF SUPPORTING

Capital projects for enterprise operations shall be financed from enterprise revenues solely.

CIP BUDGET ALLOCATIONS - 6% OF NET REVENUES

Total net direct debt service and net tax-financed CIP shall be maintained at a level equivalent to 6% of prior year net operating revenues.

- TAX FINANCED ALLOCATION - 1.5% OF NET REVENUES
Net tax-financed capital expenditures shall be maintained at a target level equivalent to 1.5% of prior year net operating revenues.
- DEBT-FINANCED ALLOCATION - 4.5% OF NET REVENUES
Net direct debt service shall be maintained at a target equivalent to 4.5% of prior year net operating revenues.

DEBT MANAGEMENT POLICIES

Debt financing of capital projects shall be utilized in accordance with the following policies:

- Debt financing for projects supported by General Fund revenue shall be reserved for capital projects and expenditures which either cost in excess of \$250,000 or have an anticipated life span of five years or more, or are expected to prolong the useful life of a capital asset by five years or more. For projects supported by Enterprise Fund revenue, debt financing shall be reserved for capital projects and expenditures that cost in excess of \$100,000.
- Bond maturities shall not exceed the anticipated useful life of the capital project being financed. Except for major buildings and water and sewer projects, bond maturities shall be limited to no more than ten years.
- Bond maturities shall be maintained so that at least 60% of the outstanding net direct debt (principal) shall mature within 10 years.
- Total outstanding general obligation debt shall not exceed 2.5% of the total assessed value of property.
- Total outstanding general obligation debt per capita shall not exceed \$2,385, which reflects \$2,000 inflated annually since July 1, 2004. This amount shall continue to be adjusted annually by the consumer price index (CPI) for all urban consumers (northeast region all items).
- Total outstanding general obligation debt per capita shall not exceed 6% of per capita income, as defined by the Census Bureau of the U.S. Department of Commerce.

FREE CASH

After using free cash in accordance with the Town's free cash policy, available free cash shall be used to supplement the CIP so that total CIP funding as a percent of the prior year's net revenue is not less than 7.5%, to the extent made possible by levels of available free cash.
